

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bruce Kinon
DOCKET NO.: 19-03952.001-R-1
PARCEL NO.: 16-32-213-002

The parties of record before the Property Tax Appeal Board are Bruce Kinon, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$43,775
IMPR.: \$258,414
TOTAL: \$302,189

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick and wood siding exterior construction with 3,224 square feet of living area. The dwelling was built in 2014 and is approximately 5 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 460 square foot garage. The property has a 9,300 square foot site and is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject property. The comparables are described as two-story dwellings of wood siding or brick exterior construction ranging in size from 3,466 to 4,075 square feet of living area. The dwellings range in age from 6 to 11 years old. The comparables have full basements with one having finished area. Each

comparable has central air conditioning, three comparables each have a fireplace, and each comparable has a garage ranging in size from 484 to 832 square feet of building area. The comparables have improvement assessments ranging from \$248,451 to \$276,136 or from \$66.07 to \$73.87 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$302,189. The subject property has an improvement assessment of \$258,414 or \$80.15 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject property. The comparables are described as two-story dwellings of wood siding or brick and wood siding exterior construction ranging in size from 2,874 to 3,355 square feet of living area. The dwellings were constructed from 2011 to 2016. The comparables have full basements, with one having a recreation room. Other features of each comparable are central air conditioning, a fireplace, and a garage ranging in size from 440 to 720 square feet of building area. The comparables have improvement assessments ranging from \$229,970 to \$275,119 or from \$80.02 to \$83.41 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their differences in age and/or dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables which overall are more similar to the subject in location, age, dwelling size and most features. These comparables have improvement assessments ranging from \$229,970 to \$275,119 or from \$80.02 to \$83.41 per square foot of living area. The subject's improvement assessment of \$258,414 or \$80.15 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
