

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gregory Shraybman  
DOCKET NO.: 19-04272.001-R-1  
PARCEL NO.: 15-30-404-028

The parties of record before the Property Tax Appeal Board are Gregory Shraybman, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$29,354  
**IMPR.:** \$82,131  
**TOTAL:** \$111,485

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story frame exterior single-family dwelling built in 1978. The dwelling contains 1,848 square feet of living area and features a full basement with 819 square feet of finished area, central air conditioning, and a 506-square foot attached garage. The property is situated on a 7,070 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted information on five comparable sales located in the same neighborhood code as the subject. According to appellant's grid analysis, the comparables consist of two-story single-family dwellings of frame exterior construction ranging in size from 1,940 to 2,212 square feet of living area. The dwellings were built in 1976 or 1978 and are situated on lots ranging in size from 6,080 to 10,605 square feet of land area. The comparables each have either a full or partial

basement, three of which have finished area, central air conditioning, and a garage ranging in size from 506 to 649 square feet of building area. Three comparables each have a fireplace.

Appellant's counsel submitted a brief noting that three comparables had a fireplace, which the subject does not, three comparables each have a larger garage than the subject, and comparable #3 had been rehabbed. Appellant's counsel also submitted listing sheets for comparables #3 and #4. The listing sheets disclosed that comparable #3 was rehabbed in 2011 and is situated on a preferred cul de sac lot, and comparable #4 has newer windows, siding, furnace, hot water tank, and appliances and has a pond view as it backs up to Crossings Pond.

The five comparables sold from July 2018 to September 2019 for prices ranging from \$290,000 to \$405,525 or from \$140.03 to \$183.33 per square foot of living area, land included. Based on the above evidence, the appellant requested a reduction in the subject's assessment to \$101,630 which reflects an estimated market value of \$304,920 or \$165.00 per square foot of living area, including land.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$111,485. The subject's assessment reflects a market value of approximately \$338,963 or \$183.42 per square foot of living area, land included, when using the 2019 three-year average median level of assessment for Lake County of 32.89% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted a grid analysis containing information on the subject and on four comparable sales, with board of review comparables #2 and #4 being the same properties as appellant's comparables #5 and #3, respectively. The comparables are located within the same neighborhood code as the subject and consist of two-story single-family dwellings of frame exterior construction that range in size from 1,848 to 2,212 square feet of living area. The dwellings were built from 1976 to 1978 and are situated on lots ranging in size from 6,000 to 10,610 square feet of land area. The comparables each have a full or partial basement, three with finished area, central air conditioning, one or two fireplaces, and a garage containing 506 or 649 square feet of building area. The comparables sold from April 2018 to April 2019 for prices ranging from \$332,500 to \$405,525 or from \$171.39 to \$205.63 per square foot of living area, land included. Based on the foregoing evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted a total of seven comparable sales as two of the comparables were submitted by both parties. The Board gives less weight to appellant's comparables #3 and #4 as both were updated or rehabbed according to the listing sheets submitted by appellant's counsel.

Further, comparable #3 has a larger garage and larger lot size than the subject, and comparable #4 backs to a pond, dissimilar to the subject. The Board also gives less weight to board of review comparables #3 and #4 which are smaller dwellings and/or have a larger garage when compared to the subject.

The Board finds that appellant's comparables #1, #2, and #5, which includes one of the parties' common comparables, along with board of review comparable #1, were the best comparables submitted in the record and were similar to the subject in location, design, age, dwelling size, garage size and most features. These comparables sold from April 2018 to February 2019 for prices ranging from \$290,000 to \$405,525 or from \$140.03 to \$205.63 per square foot of living area, land included. The subject's assessment reflects an estimated market value of \$338,963 or \$183.42 per square foot of living area, land included, which falls within the range established by the best comparable sales submitted for the Board's consideration. After considering adjustments to the comparables for differences when compared to the subject, the Board finds that a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
