

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Weisman
DOCKET NO.: 19-04746.001-R-1
PARCEL NO.: 16-16-201-023

The parties of record before the Property Tax Appeal Board are Joseph Weisman, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$56,320
IMPR.: \$114,113
TOTAL: \$170,433

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of brick and wood siding exterior construction containing 2,435 square feet of living area. The dwelling was built in 1978. Features of the home include a slab foundation, central air conditioning, one fireplace and an attached garage with 462 square feet of building area. The property is located in Highland Park, West Deerfield Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on five comparable sales improved two-story dwellings with brick and wood siding exteriors ranging in size from 2,236 to 2,746 square feet of living area. The homes were built from 1977 to 1984. Based on copies of the Multiple Listing Service (MLS) data sheets provided by the appellant, appellant's comparables #1, #3 and #4 have either a full or partial basement. Comparables #2 and #5 are described as having slab foundations in

the appellant's grid analysis. Each comparable has central air conditioning, one fireplace, and an attached garage ranging in size from 441 to 529 square feet of building area. The MLS listings for comparables #1, #3 and #4 state the homes were rehabbed in 2016 or 2018 and each has a finished basement. The comparables are located in the same neighborhood as the subject property. The appellant's comparables sold from June 2018 to August 2019 for prices ranging from \$335,000 to \$577,000 or from \$142.80 to \$210.12 per square foot of living area, land included. The appellant requested the subject's assessment be reduced to \$146,085.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$170,433. The subject's assessment reflects a market value of \$518,191 or \$212.81 per square foot of living area, land included, when using the 2019 three-year average median level of assessment for Lake County of 32.89% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on five comparable sales with board of review comparables #3 and #4 being the same comparable sales as appellant's comparables #5 and #4, respectively. Board of review comparable #5 is a subsequent sale of appellant's comparable #2. The comparables are improved with 2-story dwellings with brick or brick and wood siding exteriors ranging in size from 2,236 to 2,746 square feet of living area.¹ The dwellings were built from 1977 to 1984. Three comparables have slab foundations and two comparables have either a full or partial basement with one having finished area. Each comparable has central air conditioning, one fireplace, and an attached garage with 441 or 529 square feet of building area. The comparables are located in the same subdivision as the subject property. The sales occurred from May 2018 to April 2020 for prices ranging from \$483,000 to \$577,000 or from \$208.08 to \$243.01 per square foot of living area, including land.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight sales submitted by the parties to support their respective positions with two comparable sales being common to both parties and board of review comparable #5 being a subsequent sale of appellant's comparable #2. The Board gives less weight to board of review comparable #5 as this property sold in April 2020, more than 16 months after the assessment date at issue and not as proximate in time to the assessment date as the remaining sales. The seven remaining sales are similar to the subject in dwelling age, size, and location. The comparables are relatively similar to the subject in features with the exception appellant's

¹ The board of review grid analysis describes comparable #1 as a one-story dwelling, however, a review of the data indicates the comparable's above ground living area exceeds the property's ground floor area demonstrating the comparable is improved with a multiple story dwelling.

comparables #1, #3 and #4/board of review comparable #4 as well as board of review comparable #2 have basements, three with finished areas, which is superior to the subject's slab foundation. The comparables with basements should have downward adjustments to make them more equivalent to the subject because of this feature the subject does not have. The comparables sold from April 2018 to August 2019 for prices ranging from \$335,000 to \$577,000 or from \$142.80 to \$243.01 per square foot of living area, including land. The three comparables that have slab foundations like the subject sold for prices of \$335,000, \$565,000, and \$577,000 or for \$149.82, \$243.10, and \$210.12 per square foot of living area, including land respectively. The subject's assessment reflects a market value of \$518,191 or \$212.81 per square foot of living area, including land, which is within the range established by the comparable sales in this record and appears well supported by those comparables improved with dwellings that have similar slab foundations as the subject property. Based on this evidence the Board finds the assessment of the subject property as established by the board of review is correct and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
