

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel Greenhill
DOCKET NO.: 19-06059.001-R-1
PARCEL NO.: 16-35-301-025

The parties of record before the Property Tax Appeal Board are Daniel Greenhill, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$49,142
IMPR.: \$105,931
TOTAL: \$155,073

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a tri-level style single family dwelling of brick and wood siding construction containing 1,869 square feet of above ground living area. The dwelling was built in 1964 and is approximately 55 years old. Features of the home include a lower level with 928 square feet of finished area, central air conditioning, one fireplace and an attached garage with 480 square feet of building area. The property has a 20,120 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with tri-level style dwellings of brick or wood siding exterior construction ranging in size from 2,049 to 2,472 square feet of above ground living area. The homes range in age from 55 to 64 years old. Each property has a lower level with finished area

ranging in size from 308 to 928 square feet and central air conditioning. Two comparables have one or two fireplaces and three comparables have an attached garage ranging in size from 462 to 900 square feet of building area. The comparables have the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$92,611 to \$130,406 or from \$44.46 to \$52.75 per square foot of above ground living area. The appellant requested the subject's improvement assessment be reduced to \$90,277.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$155,073. The subject property has an improvement assessment of \$105,931 or \$56.68 per square foot of above ground living area.

In support of its contention of the correct assessment the board of review submitted information on five equity comparables improved with tri-level style dwellings of brick and wood siding exterior construction ranging in size from 1,869 to 2,051 square feet of above ground living area. The homes range were built in 1963 and 1964. Each property has a lower level with from 841 to 930 square feet of finished area, central air conditioning, one or two fireplaces. Two comparables have one or two fireplaces and an attached garage ranging in size from 440 to 506 square feet of building area. The comparables have the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$105,931 to \$113,976 or from \$53.72 to \$60.25 per square foot of above ground living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review as these properties are most similar to the subject in age, size and features. The board of review comparables have improvement assessments that range from \$105,931 to \$113,976 or from \$53.72 to \$60.25 per square foot of above ground living area. The subject's improvement assessment of \$105,931 or \$56.68 per square foot of above ground living area falls within the range established by the best comparables in this record. Less weight is given the appellant's comparables due to differences from the subject dwelling in age, size and/or features. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
