

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Miranda Jesus
DOCKET NO.: 19-07157.001-R-1
PARCEL NO.: 04-16-301-016

The parties of record before the Property Tax Appeal Board are Miranda Jesus, the appellant, by attorney Sreeram Natarajan, of Natarajan Worstell LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,185
IMPR.: \$31,858
TOTAL: \$34,043

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of wood siding exterior construction with 1,064 square feet of living area. The dwelling was built in 1979. Features of the home include a basement, central air conditioning and a 484 square foot garage. The property has a 3,450 square foot site and is located in Zion, Zion Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in same assessment neighborhood code as the subject. The comparables are described as one-story dwellings of wood siding exterior construction ranging in size from 1,189 to 1,310 square feet of living area. The dwellings were built in 1970. Four comparables have basements. One comparable has central air conditioning and a garage with 420 square feet of building area. The comparables have improvement assessments ranging from \$29,190 to \$30,867

or from \$22.88 to \$24.75 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$34,043. The subject property has an improvement assessment of \$31,858 or \$29.04 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in same assessment neighborhood code as the subject. The comparables consist of one-story dwellings of wood siding exterior construction ranging in size from 1,040 to 1,080 square feet of living area. The dwellings were constructed in 1977 or 1979 and have basements. Two comparables have central air conditioning. Each comparable has a garage ranging in size from 400 to 624 square feet of building area. The comparables have improvement assessments ranging from \$31,211 to \$32,934 or from \$30.01 to \$30.49 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables as each dwelling has a larger dwelling size than the subject. In addition, one comparable lacks a basement and three comparables lack a garage when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables which overall are more similar the subject in location, age, dwelling size and features. These comparables have improvement assessments ranging from \$31,211 to \$32,934 or from \$30.01 to \$30.49 per square foot of living area. The subject has an improvement assessment of \$31,858 or \$29.04 per square foot of living area, which falls within the improvement assessment range established by the best comparables in the record on an overall basis and below on a per square foot basis. Therefore, after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this evidence, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
