

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jarad Backhus
DOCKET NO.: 19-07344.001-R-1
PARCEL NO.: 11-21-229-005

The parties of record before the Property Tax Appeal Board are Jarad Backhus, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$67,342
IMPR.: \$210,745
TOTAL: \$278,087

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction containing 3,334 square feet of living area. The dwelling was built in 2011 and is approximately 8 years old. Features of the home include an unfinished full basement, central air conditioning, three fireplaces and an attached garage with 735 square feet of building area. The property has a site with approximately 7,800 square feet of land area and is located in Libertyville, Libertyville Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with two-story dwellings of wood siding exterior construction ranging in size from 2,055 to 3,732 square feet of living area. The dwellings range in age from 3 to 15 years old. Three comparables have unfinished full basements and one comparable has a lower

level with finished area. Each comparable has central air conditioning and an attached or detached garage ranging in size from 440 to 635 square feet of building area. Three comparables have one fireplace. The comparables have the same assessment neighborhood code as the subject property and are located from .09 to .20 of one mile from the subject property. The improvement assessments on these properties range from \$113,520 to \$220,115 or from \$55.24 to \$59.48 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$193,232.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$278,087. The subject property has an improvement assessment of \$210,745 or \$63.21 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted a uniformity grid analysis containing information on five equity comparables improved with two-story dwellings of wood siding exterior construction ranging in size from 2,901 to 3,478 square feet of living area. The dwellings were built from 2007 to 2014. Each comparable has an unfinished full basement, central air conditioning, two or four fireplaces and an attached or detached garage ranging in size from 440 to 616 square feet of building area. Comparables #1, #2 and #3 each have a fully finished attic. The comparables have the same assessment neighborhood code as the subject property and are located from approximately .01 to .21 of one mile from the subject property. The improvement assessments on these properties range from \$216,209 to \$263,423 or from \$71.85 to \$76.58 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #3 as well as the comparables submitted by the board of review. These comparables have improvement assessments that range from \$183,271 to \$263,423 or from \$58.98 to \$76.58 per square foot of living area. The subject's improvement assessment of \$210,745 or \$63.21 per square foot of living area falls within the range established by the best comparables in this record and is below each of the board of review comparables. Less weight is given to appellant's comparables #1 and #4 due to differences from the subject dwelling in size and/or finished basement area. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
