

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jasmin Patel  
DOCKET NO.: 19-07420.001-R-1  
PARCEL NO.: 11-28-108-037

The parties of record before the Property Tax Appeal Board are Jasmin Patel, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$53,496  
**IMPR.:** \$146,298  
**TOTAL:** \$199,794

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of brick exterior construction with 3,298 square feet of living area. The dwelling was constructed in 2002. Features of the home include an unfinished full basement, central air conditioning, one fireplace and an attached garage with 549 square feet of building area. The property has a 15,692 square foot site and is located in Vernon Hills, Libertyville Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with two-story dwellings of brick exterior construction ranging in size from 3,551 to 3,844 square feet of living area. Each dwelling is 16 years old. Each comparable has an unfinished full basement, central air conditioning, one fireplace, and an attached garage ranging in size from 550 to 618 square feet of building area. The comparables have the same

assessment neighborhood code as the subject property and are located from .17 to .27 of one mile from the subject property. The improvement assessments on these properties range from \$151,286 to \$164,065 or from \$42.60 to \$42.78 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$140,849.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$199,794. The subject property has an improvement assessment of \$146,298 or \$44.36 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted a uniformity grid analysis containing information on five equity comparables improved with two-story dwellings of brick exterior construction ranging in size from 3,486 to 3,717 square feet of living area. The dwellings were built from 2001 to 2005. Each comparable has an unfinished full basement, central air conditioning, one or two fireplaces, and an attached garage ranging in size from 561 to 708 square feet of building area. The comparables have the same assessment neighborhood code as the subject property and are located from approximately .03 to .29 of one mile from the subject property. The improvement assessments on these properties range from \$156,068 to \$166,065 or from \$43.41 to \$45.49 per square foot of living area.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine comparables submitted by the parties to support their respective positions. The comparables are similar to the subject in location and improved with dwellings similar to the subject dwelling in style, age and features. The primary difference is that each comparable is improved with a dwelling that is larger than the subject home. These comparables have improvement assessments that range from \$151,286 to \$166,065 or from \$42.60 to \$45.49 per square foot of living area. The subject's improvement assessment of \$146,298 or \$44.36 per square foot of living area falls below the overall range but within the range on a per square foot basis established by the comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
