

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Craig Jacobson  
DOCKET NO.: 19-07477.001-R-1  
PARCEL NO.: 15-28-313-005

The parties of record before the Property Tax Appeal Board are Craig Jacobson, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$44,523  
**IMPR.:** \$118,683  
**TOTAL:** \$163,206

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of wood siding exterior construction with 2,220 square feet of living area. The dwelling was constructed in 1989 and is 30 years old. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 483 square foot garage. The property has an approximately 11,280 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with two-story dwellings of wood siding exterior construction that range in size from 2,535 to 2,723 square feet of living area. Each comparable is 34 years old, has an unfinished basement, central air conditioning and a garage ranging in size from 400 to

483 square feet of building area. Three comparables each have one fireplace. The comparables have improvement assessments that range from \$127,273 to \$135,964 or from \$49.78 to \$50.21 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$111,116 or \$50.05 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$163,206. The subject has an improvement assessment of \$118,683 or \$53.46 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story dwellings of wood siding exterior construction each with 2,279 square feet of living area. The homes were built in 1988 to 1989. Each comparable has a basement with finished area, central air conditioning, one or two fireplaces and a 440 square foot garage. The comparables have improvement assessments that range from \$128,206 to \$136,250 or from \$56.26 to \$59.78 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The appellant's comparables are all larger in dwelling size when compared to the subject while the board of review's comparables each have finished basement area, in contrast to the subject's unfinished basement. The comparables are similar to the subject in location, age, design and other features and have improvement assessments that range from \$127,273 to \$136,250 or from \$49.78 to \$59.78 per square foot of living area. The subject's improvement assessment of \$118,683 or \$53.46 per square foot of living area falls below the range established by the best comparables in this record on an overall basis and within the range on a per square foot basis. Accepted real estate theory provides that, all things being equal, as the size of a property increases, the per unit value decreases. In contrast, as the size of a property decreases, the per unit value increases. Therefore, given the subject's smaller dwelling size, its per square foot value appears logical. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
