

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patrick Haris  
DOCKET NO.: 19-07524.001-R-1  
PARCEL NO.: 15-30-201-015

The parties of record before the Property Tax Appeal Board are Patrick Haris, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$39,788  
**IMPR.:** \$195,020  
**TOTAL:** \$234,808

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of brick exterior construction with 3,686 square feet of living area. The dwelling was constructed in 1987 and is approximately 32 years old. Features of the home include a walk-out<sup>1</sup> basement finished with a recreation room, central air conditioning, three fireplaces and an 816 square foot garage. The property has an approximately 56,630 square foot site and is located in Long Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity

comparables with the same assessment neighborhood code as the subject and located within .55 of a mile from the subject property. The comparables are improved with two-story dwellings of wood siding or brick exterior construction ranging in size from 3,174 to 4,067 square feet of living area. The dwellings range in age from 30 to 40 years old. Each comparable has a basement with finished area, central air conditioning, one or two fireplaces and a garage ranging in size from 690 to 759 square feet of building area. The comparables have improvement assessments that range from \$113,652 to \$202,494 or from \$27.95 to \$49.79 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$158,958 or \$43.12 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$234,808. The subject property has an improvement assessment of \$195,020 or \$52.91 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on five equity comparables with the same assessment neighborhood code as the subject and located within .34 of a mile from the subject property. The comparables are improved with two-story dwellings of brick or wood siding exterior construction ranging in size from 3,595 to 4,256 square feet of living area. The dwellings were built from 1985 to 1991. The comparables have basements, four of which have recreation rooms and one is a walk-out design. The comparables each have central air conditioning, two or three fireplaces and a garage ranging in size from 726 to 2,434 square feet of building area. The comparables have improvement assessments that range from \$178,540 to \$236,528 or from \$48.36 to \$63.87 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of nine suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review comparables #4 and #5 due to their dissimilar dwelling sizes when compared to the subject. Furthermore, the Board finds the appellant's comparable #4 appears to be an outlier due to its considerably lower improvement assessment of \$113,652 or \$27.95 per square foot of living area when compared to the remaining comparables in the record.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #3, which are overall more similar to the subject in location, dwelling size, design and age. However, the Board finds board of review comparables #1 and #2 each have an inground swimming pool, not a feature of the subject, suggesting a downward adjustment for this feature would be required to make these comparables more equivalent to the subject. Additionally,

board of review comparable #2 has no basement recreation room, a feature of the subject, suggesting an upward adjustment would be required for this feature. Nevertheless, these three comparables have improvement assessments that range from \$178,540 to \$229,612 or from \$48.36 to \$63.87 per square foot of living area. The subject's improvement assessment of \$195,020 or \$52.91 per square foot of living area falls within the range established by the most similar comparables in the record both in terms of overall improvement assessment and on a square foot basis. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
