

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steve Cynor
DOCKET NO.: 19-07558.001-R-1
PARCEL NO.: 15-16-104-025

The parties of record before the Property Tax Appeal Board are Steve Cynor, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$47,471
IMPR.: \$198,086
TOTAL: \$245,557

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction with 3,650 square feet of living area. The dwelling was built in 2001 and is approximately 18 years old. Features of the home include a partial basement with a 1,259 square foot recreation room, central air conditioning, two fireplaces, and an attached garage with 420 square feet of building area. The property has a site with approximately 15,680 square feet of land area and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with two-story dwellings of wood siding exterior construction with either 3,236 or 3,256 square feet of living area. Each home is 27 years old. Each comparable has a full unfinished basement, central air conditioning, and an attached garage with 469 square feet of

building area. Three comparables have one fireplace. The comparables have the same assessment neighborhood code as the subject property and are located from .40 to .51 of one mile from the subject property. The improvement assessments on these properties range from \$158,023 to \$160,588 or from \$48.83 to \$49.63 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$179,762.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$245,557. The subject property has an improvement assessment of \$198,086 or \$54.27 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on five equity comparables improved with two-story dwellings of brick or wood siding exterior construction ranging in size from 3,567 to 3,885 square feet of living area. Each home was constructed in 2001. Each property has a full basement with three having finished area ranging in size from 1,267 to 1,499 square feet, central air conditioning, one or two fireplaces, and an attached garage with either 651 or 672 square feet of building area. The comparables have the same assessment neighborhood code as the subject property and are located from approximately .04 to .20 of one mile from the subject property. The improvement assessments on these properties range from \$193,835 to \$213,008 or from \$53.03 to \$55.36 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review as these properties are improved with homes more similar to the subject dwelling in age, size and features than are the comparables provided by the appellant. The board of review comparables have improvement assessments that range from \$193,835 to \$213,008 or from \$53.03 to \$55.36 per square foot of living area. The subject's improvement assessment of \$198,086 or \$54.27 per square foot of living area falls within the range established by the best comparables in this record. Less weight is given the appellant's comparables as each property is improved with a dwelling that is older, smaller than the subject dwelling and lacks finished basement area, unlike the subject's finished basement. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
