

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Julie Goodman
DOCKET NO.: 19-07575.001-R-1
PARCEL NO.: 15-06-305-019

The parties of record before the Property Tax Appeal Board are Julie Goodman, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$34,643
IMPR.: \$214,580
TOTAL: \$249,223

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 3,860 square feet of living area. The dwelling was constructed in 2006 and is 13 years old. Features of the home include a basement with finished area, central air conditioning, three fireplaces and a 742 square foot garage. The property has an approximately 12,870 square foot site and is located in Long Grove, Vernon Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with two-story dwellings of wood siding exterior construction that range in size from 3,643 to 4,201 square feet of living area. The homes are either six or seven years old. Each comparable has an unfinished basement, central air conditioning and a garage

ranging in size from 735 to 769 square feet of building area. One comparable has a fireplace. The comparables have improvement assessments that range from \$175,586 to \$199,513 or from \$42.87 to \$48.22 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$180,271 or \$46.70 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$249,223. The subject has an improvement assessment of \$214,580 or \$55.59 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story dwellings of brick exterior construction that range in size from 3,825 to 4,589 square feet of living area. The homes were built from 2006 to 2009. Each comparable has a basement, four with finished area, central air conditioning, one to three fireplaces and a garage ranging in size from 748 to 1,007 square feet of building area. The comparables have improvement assessments that range from \$207,660 to \$250,471 or from \$52.97 to \$57.25 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables along with board of review comparable #3 which lack finished basements when compared to the subject.

The Board finds the best evidence of assessment equity to be the remaining board of review comparables which are more similar to the subject in location, age, design, basement finish and other features. These comparables have improvement assessments that range from \$207,660 to \$250,471 or from \$52.97 to \$57.25 per square foot of living area. The subject's improvement assessment of \$214,580 or \$55.59 per square foot of living area falls within the range established by the best comparables in this record. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
