

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Xin Lu
DOCKET NO.: 19-07587.001-R-1
PARCEL NO.: 11-21-419-004

The parties of record before the Property Tax Appeal Board are Xin Lu, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$56,124
IMPR.: \$95,022
TOTAL: \$151,146

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a split-level dwelling¹ of frame exterior construction with 1,799 square feet of living area. The dwelling was constructed in 1961 and is approximately 58 years old. The home has an effective age of 1984.² Features of the home include a basement, a lower level, central air conditioning, a fireplace, and a 576 square foot garage. The property has a 10,000 square foot site and is located in Libertyville, Libertyville Township, Lake County.

¹ The parties differ regarding the subject's design. The appellant described the subject as a split-level home with a lower level. The board of review described the subject as a one-story home with a lower level and the subject's property record card presented by the board of review includes a sketch depicting the subject's lower level. The Board finds the subject is a split-level dwelling.

² Additional details regarding the subject property not reported by the appellant are found in the subject's property record card presented by the board of review.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables. The comparables are located from 0.03 to 0.19 of a mile from the subject property and within the same assessment neighborhood code as the subject property. The comparables are improved with split-level homes of frame exterior construction ranging in size from 1,476 to 1,683 square feet of living area. The dwellings are 56 or 59 years old. Each home has a lower level and central air conditioning. One home has a basement, three homes have a fireplace, and three homes have a garage ranging in size from 338 to 600 square feet of building area. The comparables have improvement assessments ranging from \$66,641 to \$77,391 or from \$41.29 to \$46.86 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$81,359 or \$45.23 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$151,146. The subject property has an improvement assessment of \$95,022 or \$52.82 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on five equity comparables. The comparables are located from 0.06 to 0.19 of a mile from the subject property and within the same assessment neighborhood code as the subject property. The comparables are improved with one-story homes of wood siding exterior construction ranging in size from 1,476 to 1,682 square feet of living area. The dwellings were built in 1960 or 1963 with comparable #5 having an effective age of 1974. Each home has a lower level, a fireplace, and a garage ranging in size from 338 to 506 square feet of building area. Two homes have a basement and four homes have central air conditioning. The comparables have improvement assessments ranging from \$76,451 to \$91,467 or from \$45.45 to \$54.54 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's improvement assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #3 and the board of review's comparable #2 due to differences from the subject in dwelling size.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #2, and #4 and the board of review's comparables #1, #3, #4, and #5, which are similar to the subject in design, dwelling size, age, location, and some features, although the subject has a newer

effective age than these comparables and only two of these comparables has a basement like the subject. These comparables have improvement assessments that range from \$66,641 to \$91,467 or from \$41.29 to \$54.54 per square foot of living area. The subject's improvement assessment of \$95,022 or \$52.82 per square foot of living area falls above the range established by the best comparables in terms of total improvement assessment and within the range on a per square foot basis. Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
