

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kwang Kim
DOCKET NO.: 19-07588.001-R-1
PARCEL NO.: 11-26-403-010

The parties of record before the Property Tax Appeal Board are Kwang Kim, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$57,290
IMPR.: \$104,839
TOTAL: \$162,129

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of wood siding exterior construction with 2,238 square feet of living area. The dwelling was constructed in 1988 and is approximately 31 years old. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 588 square foot garage. The property has a 50,688¹ square foot site and is located in Lake Forest, Libertyville Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject and located within .55 of a mile from the subject property. The comparables are improved with one-story dwellings of

¹ The Board finds the best description of the subject's site size is found in the property record card provided by the board of review, which was unrefuted by the appellant.

wood siding exterior construction ranging in size from 1,756 to 2,433 square feet of living area. The dwellings range in age from 50 to 53 years old. Each comparable has an unfinished basement, central air conditioning, one or two fireplaces and a garage ranging in size from 400 to 745 square feet of building area. The comparables have improvement assessments that range from \$72,198 to \$92,522 or from \$37.35 to \$44.05 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$91,478 or \$40.87 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$162,129. The subject property has an improvement assessment of \$104,839 or \$46.84 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted a grid analysis, photographs and schematic diagrams of the subject and four equity comparables. The comparables have the same assessment neighborhood code as the subject and are located within .28 of a mile from the subject property. The comparables are improved with one-story dwellings of brick or frame and brick exterior construction ranging in size from 1,835 to 3,442 square feet of living area. The dwellings were built from 1968 to 1987 with the oldest dwelling having a reported effective age of 1988. Three comparables have unfinished basements and one comparable has a concrete slab foundation according to the schematic diagrams provided. Each comparable has central air conditioning and a garage ranging in size from 539 to 966 square feet of building area. Three comparables have either one or two fireplaces. The comparables have improvement assessments that range from \$91,509 to \$167,928 or from \$48.79 to \$51.42 per square foot of living area.

The board of review also indicated on a copy of the grid analysis provided by the appellant that the subject has a larger basement area than any of the appellant's comparables, all of the appellant's comparables were older in age when compared to the subject, and the appellant's comparables #3 and #4 were located a distance of .53 and .55 of a mile from the subject property.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of eight suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables #1 and #4, as well as the board of review's comparables #3 and #4 due to their dissimilar dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2 and #3 and board of review comparables #1 and #2, which are relatively similar to the subject in location, dwelling size, design and some features. The Board finds board of review comparable #2 is most similar to the subject in year built. The four comparables have improvement assessments that range from \$90,883 to \$105,621 or from \$37.35 to \$51.42 per square foot of living area. The subject's improvement assessment of \$104,839 or \$46.84 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
