

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Praveen Palutla
DOCKET NO.: 19-07633.001-R-1
PARCEL NO.: 15-33-402-116

The parties of record before the Property Tax Appeal Board are Praveen Palutla, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$27,600
IMPR.: \$153,956
TOTAL: \$181,556

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick and wood siding exterior construction with 2,736 square feet of living area. The dwelling was constructed in 2006 and is 13 years old. Features of the home include an unfinished basement, central air conditioning and a 420 square foot garage. The property has a site containing approximately 5,662 square feet of land area and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are described as two-story dwellings of wood siding exterior construction with either 3,120 or 3,180 square feet of living area. The dwellings are 8 or 9 years old. Each comparable has an unfinished basement, central air conditioning and a garage with 400 square feet of building area.

Comparable #3 has a fireplace. The comparables have improvement assessments ranging from \$148,893 to \$172,391 or \$47.72 to \$54.21 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$181,556. The subject property has an improvement assessment of \$153,956 or \$56.27 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables with the same assessment neighborhood code as the subject. The comparables consist of two-story dwellings of brick or brick and wood siding exterior construction that range in size from 2,687 to 2,824 square feet of living area. The dwellings were constructed from 2006 to 2010. Each comparable has an unfinished basement, central air conditioning, one fireplace, and a garage with 400 square feet of building area. The comparables have improvement assessments ranging from \$151,971 to \$159,994 or from \$54.94 to \$58.24 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which have larger dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables which are most similar to the subject in dwelling size. These comparables are also similar to the subject in location, age, and features with the exception that each has a fireplace unlike the subject. These properties have improvement assessments ranging from \$151,971 to \$159,994 or from \$54.94 to \$58.24 per square foot of living area. The subject's improvement assessment of \$153,956 or \$56.27 per square foot of living area, falls within the range established by the best comparables in the record. Based on this evidence and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
