

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Scott A. Root
DOCKET NO.: 19-08077.001-R-1
PARCEL NO.: 09-17-401-013

The parties of record before the Property Tax Appeal Board are Scott A. Root, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$43,090
IMPR.: \$43,320
TOTAL: \$86,410

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame exterior construction with 970 square feet of living area. The dwelling was constructed in 1958. Features of the home include a basement and a 528 square foot garage. The property has an 11,840 square foot site and is located in Downers Grove, Downers Grove Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three suggested equity comparables located in the same neighborhood code as the subject property. The comparables were improved with one-story dwellings of frame or brick exterior construction that ranged in size from 952 to 1,142 square feet of living area. The dwellings were built from 1949 to 1957. Two comparables have basements and a garage that contains either 294 or 432 square feet of building area. The comparables have improvement assessments that ranged from \$39,030

to \$44,170 or from \$36.87 to \$40.99 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$38,373 or \$39.56 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$86,410. The subject property has an improvement assessment of \$43,320 or \$44.66 per square foot of living area. In support of its contention of the correct assessment the board of review through the township assessor submitted property record cards and a grid analysis on three suggested equity comparables located in the same neighborhood code as the subject property. The comparables were improved with one-story dwellings of frame exterior construction ranging in size from 888 to 1,092 square feet of living area. The dwellings were built from 1956 to 1958. Each comparable has a basement, one comparable has central air conditioning and each comparable has a garage ranging in size from 308 to 728 square feet of building area. The comparables have improvement assessments that ranged from \$40,010 to \$48,820 or from \$44.71 to \$45.69 per square foot of living area. Based on this evidence, the board of review requests confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #2 and #3 based on a larger dwelling size, lack of a basement and/or lack of a garage when compared to the subject. The Board gave less weight to the board of review comparable #1 as this property has central air conditioning which the subject property lacks.

The Board finds the best evidence of assessment equity to be appellant's comparable #1 along with the board of review comparables #2 and #3. These comparables are similar when compared to the subject in location, age, dwelling size, and features. These comparables had improvement assessments that ranged from \$40,010 to \$44,170 or from \$40.82 to \$45.69 per square foot of living area. The subject's improvement assessment of \$43,320 or \$44.66 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
