

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gina Gordon
DOCKET NO.: 19-08639.001-R-1
PARCEL NO.: 14-22-309-024

The parties of record before the Property Tax Appeal Board are Gina Gordon, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$61,223
IMPR.: \$222,377
TOTAL: \$283,600

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 4,171 square feet of living area. The dwelling was constructed in 2002 and is approximately 17 years old. Features of the home include a basement, central air conditioning, three fireplaces, an 880 square foot garage, and an inground swimming pool. The property has an approximately 24,393 square foot site and is located in Kildeer, Ela Township, Lake County.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables. The comparables are located from 0.02 to 0.20 of a mile from the subject property and within the same assessment neighborhood code as the subject property. The comparables are improved with two-story homes of wood siding exterior construction ranging in size from 3,874 to 4,882 square feet of living area. The dwellings are either 16 or 17 years old.

Each home has a basement, central air conditioning, one or two fireplaces, and a garage ranging in size from 745 to 803 square feet of building area. The comparables have improvement assessments ranging from \$194,317 to \$240,379 or from \$49.24 to \$50.16 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$207,496 or \$49.75 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$283,600. The subject property has an improvement assessment of \$222,377 or \$53.32 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables. The comparables are located from 0.06 to 0.37 of a mile from the subject property and within the same assessment neighborhood code as the subject property. The comparables are improved with two-story homes of frame exterior construction ranging in size from 3,804 to 4,178 square feet of living area. The dwellings were built in 2002 or 2003. Each home has a basement, one of which is a walkout basement, central air conditioning, one or two fireplaces, and a garage ranging in size from 782 to 826 square feet of building area. Each comparable also has an inground swimming pool. The comparables have improvement assessments ranging from \$204,324 to \$220,608 or from \$52.77 to \$53.71 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's improvement assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of seven equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which each lack an inground swimming pool that is a feature of the subject. Moreover, the appellant's comparable #1 is a much larger dwelling than the subject home.

The Board finds the best evidence of assessment equity to be the board of review's comparables, which are similar to the subject in dwelling size, age, location, and most features. These comparables have improvement assessments that range from \$204,324 to \$220,608 or from \$52.77 to \$53.71 per square foot of living area. The subject's improvement assessment of \$222,377 or \$53.32 per square foot of living area falls above the range established by the best comparables in terms of total improvement assessment but within the range on a per square foot basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
