

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Sheck
DOCKET NO.: 19-09075.001-R-1
PARCEL NO.: 15-28-102-001

The parties of record before the Property Tax Appeal Board are Michael Sheck, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$39,624
IMPR.: \$118,659
TOTAL: \$158,283

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of wood siding exterior construction containing 2,220 square feet of living area. The dwelling was built in 1986 and is approximately 33 years old. Features of the home include an unfinished full basement, central air conditioning, one fireplace and an attached garage with 483 square feet of building area. The property has a 10,280 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with two-story dwellings of wood siding exterior construction ranging in size from 2,464 to 2,574 square feet of living area. The dwellings are 33 or 34 years old. Each comparable has an unfinished full basement, central air conditioning, and an attached garage with 400 square feet of building area. Three comparables have one fireplace. The comparables

have the same assessment neighborhood code as the subject property and are located from approximately .10 to .36 of one mile from the subject property. The comparables have improvement assessments ranging from \$123,838 to \$128,829 or from \$50.05 to \$50.37 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$111,493.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$158,283. The subject property has an improvement assessment of \$118,659 or \$53.45 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on five equity comparables improved with two-story dwellings of wood siding exterior construction ranging in size from 2,206 to 2,279 square feet of living area. The dwellings were built in 1986. Each comparable has a full or partial basement with three being partially finished, central air conditioning, one fireplace and an attached garage with 440 or 483 square feet of building area. The comparables have the same assessment neighborhood code as the subject property and are located within approximately .07 of one mile from the subject property. The comparables have improvement assessments ranging from \$118,427 to \$129,229 or from \$53.68 to \$56.70 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine comparables to support their respective positions with each property similar to the subject in location and dwelling style. The Board finds the best comparables in the record to be those submitted by the board of review as these properties are improved with dwellings most similar to the subject dwelling in size and most features. The comparables have improvement assessments that range from \$118,427 to \$129,229 or from \$53.68 to \$56.70 per square foot of living area. The subject's improvement assessment of \$118,659 or \$53.45 per square foot of living area falls below the range established by comparables in this record on a per square foot of living area basis. Less weight is given the appellant's comparables due to the differences from the subject in dwelling size. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
