

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sarit Markovich
DOCKET NO.: 19-20039.001-R-1
PARCEL NO.: 10-13-423-030-0000

The parties of record before the Property Tax Appeal Board are Sarit Markovich, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,794
IMPR.: \$69,206
TOTAL: \$75,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 2,946 square feet of living area. The dwelling is approximately 16 years old. Features of the home include a full finished basement, central air conditioning, a fireplace and a 2-car garage. The property has a 3,996 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparable properties that are located within the same neighborhood code as the subject. The comparables are two-story or three-story, class 2-95, dwellings of masonry or frame and masonry construction that contain either 2,708 or 2,778 square feet of living area. The homes

are either 10 or 29 years old. One comparable has a full finished basement. Each comparable has central air conditioning, a fireplace and a 2-car garage. The comparables have improvement assessments ranging from \$59,062 to \$61,668 or from \$21.26 to \$22.23 per square foot of living area.

Based on this evidence the appellant requested that the subject's improvement assessment be reduced to \$62,661 or \$21.27 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$75,000. The subject property has an improvement assessment of \$69,206 or \$23.49 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four comparable properties, two of which are located within the same neighborhood code as the subject. The comparables are two-story or three-story, class 2-95, dwellings of frame, masonry or frame and masonry construction that range in size from 1,362 to 2,946 square feet of living area. The homes range in age from 12 to 30 years old. Three comparables have full or partial basements, two of which have finished area. Each comparable has central air conditioning, two comparables have a fireplace and each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$34,541 to \$79,397 or from \$23.63 to \$26.95 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine comparable properties for the Board's consideration. The Board gives less weight to the board of review's comparables #3 and #4, due to their locations outside the subject's neighborhood code. The Board finds the remaining comparables are more similar to the subject in location, building classification, size and some features. However, five of the parties' best comparables lack a basement foundation and are considerably older than the subject. Nevertheless, the best comparables have improvement assessments ranging from \$59,062 to \$79,397 or from \$21.26 to \$26.95 per square foot of living area. The subject's improvement assessment of \$69,206 or \$23.49 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
