

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Rothermel
DOCKET NO.: 19-20081.001-R-1
PARCEL NO.: 12-13-227-029-0000

The parties of record before the Property Tax Appeal Board are Robert Rothermel, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,693
IMPR.: \$53,198
TOTAL: \$59,891

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story building of masonry construction with 5,068 square feet of building area. The building is 54 years old and has a full basement apartment. The property has a 5,820 square foot site and is located in Harwood Heights, Norwood Park Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on three comparable properties that are located within the same neighborhood code as the subject. The comparables are class 2-11 buildings of masonry construction that range in size from 5,533 to 7,168 square feet of building area. The buildings are either 53 or 59 years old and have full or partial basements. No information as to whether the comparables have finished basement area

was submitted by the appellant. The comparables have improvement assessments ranging from \$55,070 to \$61,311 or from \$8.55 to \$9.95 per square foot of building area.

Based on this evidence the appellant requested that the subject's improvement assessment be reduced to \$48,045 or \$9.48 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$59,891. The subject property has an improvement assessment of \$53,198 or \$10.50 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on three comparable properties that are located within the same neighborhood code as the subject. Comparables #2 and #3 are also located on the same block as the subject. The comparables are class 2-11 buildings of masonry construction that range in size from 2,946 to 5,131 square feet of building area. The buildings are either 35 or 54 years old and have full basements, two of which are apartments. Comparable #1 also has a 3-car garage. The comparables have improvement assessments ranging from \$40,350 to \$54,843 or from \$10.69 to \$13.70 per square foot of building area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of six comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables, as well as the board of review's comparable #1, due to their differences in size and/or features, when compared to the subject. The Board finds the board of review's remaining comparables are more similar to the subject in location and are nearly identical to the subject in style, age, size and features. These comparables have improvement assessments of \$54,843 and \$54,786 or \$10.69 and \$10.71 per square foot of building area, respectively. The subject's improvement assessment of \$53,198 or \$10.50 per square foot of building area falls below the improvement assessments of the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is well supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
