

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Allen Frumkin
DOCKET NO.: 19-20699.001-R-1
PARCEL NO.: 10-24-400-040-0000

The parties of record before the Property Tax Appeal Board are Allen Frumkin, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,100
IMPR.: \$37,320
TOTAL: \$42,420

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 1,951 square feet of living area. The dwelling is approximately 21 years old and has a full unfinished basement. Features of the home include central air conditioning, a fireplace and a 2-car attached garage. The property has a 4,250 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparable properties that are located within the same neighborhood code as the subject. The comparables are two-story dwellings of masonry or frame and masonry construction that range in size from 1,540 to 1,714 square feet of living area. The homes range in age from 54 to 59

years old. Two of the comparables have full unfinished basements and four comparables have central air conditioning. The comparables have improvement assessments ranging from \$24,206 to \$28,962 or from \$15.72 to \$16.90 per square foot of living area.

Based on this evidence the appellant requested that the subject's improvement assessment be reduced to \$32,269 or \$16.54 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$42,420. The subject property has an improvement assessment of \$37,320 or \$19.13 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four comparable properties that are located within the same neighborhood code and on the same block as the subject. The comparables are two-story dwellings of frame construction that contain either 1,756 or 1,951 square feet of living area. The homes are 21 years old and have full unfinished basements. Each comparable has central air conditioning, a fireplace and either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$34,437 to \$37,334 or from \$19.14 to \$19.62 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables due to their lack of a basement foundation and/or garage, when compared to the subject. The Board finds the board of review's comparables are nearly identical to the subject in location, style, age, size and features. The best comparables have improvement assessments ranging from \$34,437 to \$37,334 or from \$19.14 to \$19.62 per square foot of living area. The subject's improvement assessment of \$37,320 or \$19.13 per square foot of living area falls within the range established by the best comparables in the record on a total improvement assessment basis but below the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is well supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
