

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Matthew Martin
DOCKET NO.: 19-20757.001-R-1
PARCEL NO.: 05-34-415-006-0000

The parties of record before the Property Tax Appeal Board are Matthew Martin, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,300
IMPR.: \$55,379
TOTAL: \$64,679

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 1,994 square feet of living area. The dwelling is 110 years old. Features of the home include a full unfinished basement, a fireplace and a 2-car detached garage. The property has a 6,200 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparable properties that are located within the same neighborhood code as the subject. The comparables are two-story dwellings of stucco, frame or frame and masonry construction that range in size from 1,960 to 2,188 square feet of living area. The homes range in age from 64 to

108 years old. Three of the comparables have unfinished full or partial basements, one comparable has central air conditioning, two comparables each have a fireplace and two comparables each have a 1-car garage.¹ The comparables have improvement assessments ranging from \$44,757 to \$48,682 or from \$22.17 to \$23.40 per square foot of living area. Based on this evidence the appellant requested that the subject's improvement assessment be reduced to \$45,542 or \$22.84 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$64,679. The subject property has an improvement assessment of \$55,379 or \$27.77 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four comparable properties that are located within the same neighborhood code as the subject. The comparables are two-story dwellings of frame exterior construction that range in size from 1,782 to 2,159 square feet of living area. The homes range in age from 102 to 132 years old and have unfinished full or partial basements. Two of the comparables have central air conditioning, each comparable has a fireplace and each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$49,629 to \$60,633 or from \$27.85 to \$28.45 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables #2, #3, #4 and #5, due to their lack of a basement foundation and/or garage when compared to the subject. In addition, comparable #5 is significantly newer than the subject. The Board finds the parties' remaining comparables are similar to the subject in location, style, age, size and some features. The best comparables have improvement assessments ranging from \$48,498 to \$60,633 or from \$22.17 to \$28.45 per square foot of living area. The subject's improvement assessment of \$55,379 or \$27.77 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported and a reduction in the subject's assessment is not warranted.

¹ The appellant's supporting documentation reveals that the appellant's comparables #2, #4 and #5 do not have a garage.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
