

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eris Erkoca
DOCKET NO.: 19-20818.001-R-1
PARCEL NO.: 11-32-327-034-0000

The parties of record before the Property Tax Appeal Board are Eris Erkoca, the appellant, by attorney Spiro Zarkos, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,842
IMPR.: \$42,712
TOTAL: \$48,554

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of masonry exterior construction with 3,628 square feet of building area. The building is approximately 104 years old. Features include a full finished basement apartment and a 2-car detached garage. The property has a 3,075 square foot site and is located in Chicago, Rogers Park Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on four comparable properties that are located within the same neighborhood code as the subject. The comparables are class 2-11, multi-family buildings of masonry exterior construction that range in size from 4,182 to 4,812 square feet of building area. The buildings range in age from 93 to 104

years old and have full basements, one of which is finished as an apartment. Three of the comparables have a 2-car detached garage. The comparables have improvement assessments ranging from \$45,925 to \$47,158 or from \$9.62 to \$11.17 per square foot of building area.

Based on this evidence the appellant requested that the subject's improvement assessment be reduced to \$37,514 or \$10.34 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" but reported the incorrect assessment of the subject property. Based on a copy of the board of review's final decision submitted by the appellant, the subject has a total assessment of \$48,554 and an improvement assessment of \$42,712 or \$11.77 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four comparable properties that are located within the same neighborhood code as the subject. The comparables are class 2-11, multi-family buildings of masonry exterior construction that range in size from 3,504 to 3,848 square feet of building area. The buildings range in age from 90 to 102 years old and have full unfinished basements. Three of the comparables have either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$43,450 to \$47,582 or from \$12.37 to \$13.19 per square foot of building area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables due to their significantly larger size, when compared to the subject. The Board finds the board of review's comparables are similar to the subject in location, building classification, age, size and features. However, each of the board of review's comparables lack a full finished basement apartment, unlike the subject. Nevertheless, the best comparables have improvement assessments ranging from \$43,450 to \$47,582 or from \$12.37 to \$13.19 per square foot of building area. The subject's improvement assessment of \$42,712 or \$11.77 per square foot of building area falls below the range established by the best comparables in the record. However, after considering adjustments to the best comparables for differences when compared to the subject, such as their lack of a full finished basement apartment, the Board finds the subject's improvement assessment is well supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
