

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sean Martin
DOCKET NO.: 19-21409.001-R-1
PARCEL NO.: 05-27-109-015-0000

The parties of record before the Property Tax Appeal Board are Sean Martin, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$38,500
IMPR.: \$183,344
TOTAL: \$221,844

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 6,690 square feet of living area. The dwelling is approximately 89 years old. Features of the home include a full finished basement, central air conditioning, four fireplaces, and a two-car attached garage. The property has a 17,500 square foot site and is located in Kenilworth, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with similar class 2-09 dwellings of frame or masonry exterior construction ranging in size from 6,688 to 6,885 square feet of living area. The dwellings range

in age from 83 to 114 years old. Each comparable has a full basement with two having finished area, central air conditioning, two to six fireplaces, and a three-car garage. The comparables have improvement assessments ranging from \$139,590 to \$165,180 or from \$20.87 to \$23.99 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$149,655 or \$22.37 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$221,844. The subject property has an improvement assessment of \$183,344 or \$27.41 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. Three comparables are also located in the same block as the subject. The comparables are improved with class 2-09 dwellings of masonry exterior construction ranging in size from 5,647 to 6,574 square feet of living area. The dwellings range in age from 89 to 92 years old. Each comparable has a full basement with one having finished area, one to three fireplaces, and a two-car or a three-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$160,940 to \$180,167 or from \$27.41 to \$29.00 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gave less weight to the board of review comparable #2 due to its significantly smaller dwelling size when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be the appellants comparables and the board of review's remaining comparables. These seven comparables are most similar in overall property characteristics to the subject property, except five of these comparables have unfinished basements. These comparables have improvement assessments ranging from \$139,590 to \$180,167 or from \$20.87 to \$29.00 per square foot of living area. The subject's improvement assessment of \$183,344 or \$27.41 per square foot of living area falls slightly above the range of the most similar comparables contained in this record on a total improvement assessment basis but within the range on a per-square-foot basis. However, after considering adjustments to the comparables for differences when compared to the subject, such as their unfinished basements, the Board finds the subject's improvement assessment is supported. Therefore, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's

improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
