

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Missy Norris
DOCKET NO.: 19-21458.001-R-1
PARCEL NO.: 05-06-201-109-0000

The parties of record before the Property Tax Appeal Board are Missy Norris, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$72,538
IMPR.: \$136,282
TOTAL: \$208,820

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 5,270 square feet of living area.¹ The dwelling is approximately 25 years old. Features of the home include a full unfinished basement, central air conditioning, three fireplaces and a three-car garage. The property has a 26,866 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on nine equity

comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar class code 2-09 dwellings of masonry or frame and masonry exterior construction ranging in size from 5,064 to 7,122 square feet of living area. The comparables range in age from 19 to 53 years old. Each comparable has a partial or a full basement with six having finished area. Each comparable has central air conditioning, one to four fireplaces and a two-car to a four-car garage. The comparables have improvement assessments ranging from \$122,103 to \$174,903 or from \$21.68 to \$25.86 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$125,426 or \$23.80 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$221,489. The subject property has an improvement assessment of \$148,951 or \$28.26 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 5,136 to 5,963 square feet of living area. The comparables range in age from 4 to 19 years old. Three comparables have a full basement with finished area and one comparable has a concrete slab foundation. Each comparable has central air conditioning, one to four fireplaces and a three-car garage. The comparables have improvement assessments ranging from \$166,284 to \$191,410 or from \$29.57 to \$33.57 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted thirteen suggested comparables for the Board's consideration. The Board finds the parties' comparables each have varying degrees of dissimilarities to the subject property in location, dwelling size, age and many features. The best comparables based on age and dwelling size include the appellant's comparables #2, #8 and #9. These comparables have improvement assessments ranging from \$124,194 to \$148,690 or \$22.31 and \$25.86 per square foot of living area. The subject's improvement assessment of \$148,951 or \$28.26 per square foot of living area falls above the range established by the best comparables with respect to age and dwelling size in this record. After considering adjustments to the comparables for differences to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
