

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patricia Federico  
DOCKET NO.: 19-21962.001-R-1  
PARCEL NO.: 05-34-223-002-0000

The parties of record before the Property Tax Appeal Board are Patricia Federico, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$9,768  
**IMPR.:** \$69,088  
**TOTAL:** \$78,856

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1.5-story dwelling of frame exterior construction with 2,159 square feet of living area. The dwelling is approximately 7 years old. Features of the home include a full basement with finished area, central air conditioning, one fireplace and a 2-car garage. The property has a 4,440 square foot site located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-04 dwellings of masonry or frame and masonry exterior construction ranging in size from 1,937 to 2,679 square feet of living area. The dwellings range

in age from 47 to 99 years old. Each comparable has a partial or a full basement with finished area, central air conditioning, one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$49,976 to \$71,710 or from \$23.31 to \$27.03 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$55,055 or \$25.50 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$78,856. The subject property has an improvement assessment of \$69,088 or \$32.00 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are each located within the same neighborhood code as the subject property. The Board notes that comparable #3 is the same property as the appellant's comparable #4. The comparables are improved with 1.5-story dwellings of frame or masonry exterior construction ranging in size from 1,937 to 2,334 square feet of living area. The dwellings range in age from 34 to 99 years old. The comparables have partial or full basements, one of which has finished area. Two comparables have central air conditioning. Three comparables have either one or two fireplaces. Each comparable has a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$49,239 to \$63,716 or from \$25.52 to \$27.30 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board recognizes there are eight comparables submitted by both parties, but only seven comparables are included in the Board's analysis since the appellant's comparable #4 is the same property as the board of review's comparable #3. The Board also notes that the improvement assessment provided by the parties for the common comparable differs slightly. The Board finds this difference will not affect the Board's ability to decide and has utilized the board of review's improvement assessment for consistency. The Board gives less weight to the appellant's comparables #1 and #3 due to their larger dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables as they are similar to the subject in location, design, dwelling size and most features, except each of these comparables is older than the subject requiring upward adjustments for age to make them more equivalent to the subject. These comparables have improvement assessments ranging from \$49,239 to \$63,716 or from \$25.42 to \$27.30 per square foot of living area. The subject's improvement assessment of \$69,088 or \$32.00 per square foot of living area falls above the range established by the best comparables in this record but is supported based on the subject's

significantly newer age. After considering adjustments to the comparables for differences to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
