

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Carolyn Bergen
DOCKET NO.: 19-22092.001-R-1
PARCEL NO.: 05-18-203-014-0000

The parties of record before the Property Tax Appeal Board are Carolyn Bergen, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,228
IMPR.: \$86,111
TOTAL: \$101,339

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 3,298 square feet of living area. The dwelling is 90 years old. Features of the home include a full unfinished basement, central air conditioning and a fireplace. The property has an 8,460 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story dwellings of frame or frame and masonry exterior construction ranging in size from 3,060 to 3,387 square feet of living area. The dwellings range in age from 92 to 102 years old and have a partial

or a full basement with one having finished area. Three comparables have central air conditioning. Each comparable has one fireplace. Four comparables have a two-car garage. The comparables have improvement assessments ranging from \$70,508 to \$76,522 or from \$22.59 to \$23.12 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$74,501 or \$22.59 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$101,339. The subject property has an improvement assessment of \$86,111 or \$26.11 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story dwellings of stucco or frame and masonry exterior construction ranging in size from 3,158 to 3,434 square feet of living area. The dwellings range in age from 86 to 97 years old. Each comparable has a partial or a full unfinished basement, central air conditioning, one fireplace and either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$84,382 to \$108,768 or from \$26.72 to \$31.67 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the parties' comparables are most similar to the subject in location, design, age, dwelling size and most features, except one comparable has finished basement area and six comparables have a garage, suggesting downward adjustments, in contrast to the subject which has an unfinished basement and lacks a garage. The best comparables have improvement assessments ranging from \$70,508 to \$108,768 or from \$22.59 to \$31.67 per square foot of living area. The subject's improvement assessment of \$86,111 or \$26.11 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
