

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Carol Callahan
DOCKET NO.: 19-22766.001-R-1
PARCEL NO.: 05-33-213-016-0000

The parties of record before the Property Tax Appeal Board are Carol Callahan, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,750
IMPR.: \$40,662
TOTAL: \$50,412

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,928 square feet of living area. The dwelling is approximately 98 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces and a 2-car garage. The property has a 7,800 square foot site located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The

comparables are improved with similar class code 2-04¹ dwellings of frame exterior construction ranging in size from 2,339 to 2,901 square feet of living area. The comparables range in age from 60 to 121 years old. Each comparable has a partial or a full basement with one having finished area. Each comparable has central air conditioning and a 2-car or a 2.5-car garage. Three comparables each have one fireplace. The comparables have improvement assessments ranging from \$44,714 to \$48,918 and from \$16.86 to \$20.61 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$35,803 or \$18.57 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$50,412. The subject property has an improvement assessment of \$40,662 or \$21.09 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with 1-story or 1.5-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 1,815 to 2,045 square feet of living area. The comparables range in age from 54 to 66 years old. Each comparable has a partial or a full basement with two having finished area. Each comparable has central air conditioning and a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$41,487 to \$48,957 or from \$22.02 to \$25.34 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds that none of the appellant's comparables are truly similar to the subject in age, dwelling size and many features and are given less weight. All of these comparables had improvement assessments ranging from \$16.86 to \$25.34 per square foot of living area. The subject's improvement assessment of \$21.09 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported and a reduction in the subject's assessment is not justified.

¹ The appellant's attorney did not provide sufficient detail in the grid analysis on property characteristics to determine story height for the subject and comparables in the appellant's evidence. Story height has been determined from the evidence provided by the board of review.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
