

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Polornik
DOCKET NO.: 19-23629.001-R-1
PARCEL NO.: 14-30-205-014-0000

The parties of record before the Property Tax Appeal Board are Thomas Polornik, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$17,500
IMPR.: \$98,414
TOTAL: \$115,914

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,736 square feet of living area. The dwelling is 12 years old. Features of the home include a full finished basement, central air conditioning and a 2.5-car garage. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-78 dwellings of masonry exterior construction ranging in size from 2,445 to 2,996 square feet of living area. The comparables range in age from 11 to 16

years old. The comparables have full basements with finished area, central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments ranging from \$77,855 to \$92,859 or from \$28.13 to \$31.84 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$82,354 or \$30.10 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$115,914. The subject property has an improvement assessment of \$98,414 or \$35.97 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject property. One comparable is also located with the same block as the subject. The comparables are improved with class 2-78, two-story dwellings of masonry exterior construction ranging in size from 2,679 to 3,108 square feet of living area. The comparables range in age from 10 to 16 years old. The comparables have partial or full basements with finished area, central air conditioning, and one or three fireplaces. Three comparables each have two-car garage. The comparables have improvement assessments ranging from \$98,035 to \$111,923 or from \$36.01 to \$37.26 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #4 and board of review comparables #1 and #2 due to differences in dwelling size and/or lack of a garage when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. These comparables are most similar to the subject in age, dwelling size, foundation, and other features. These comparables have improvement assessments ranging from \$80,000 to \$98,426 or from \$28.13 to \$36.74 per square foot of living area. The subject's improvement assessment of \$98,414 or \$35.97 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
