

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Maria Muhl
DOCKET NO.: 19-23638.001-R-1
PARCEL NO.: 14-29-110-036-0000

The parties of record before the Property Tax Appeal Board are Maria Muhl, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,750
IMPR.: \$54,750
TOTAL: \$73,500

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of frame exterior construction with 2,650 square feet of building area. The building is approximately 130 years old and has a finished basement with an apartment. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same neighborhood code as the subject. One comparable is located on the same block and street as the subject. The comparables are improved with class 2-11 buildings of frame exterior construction ranging in size from 2,460 to 3,081 square feet of building area. The buildings range in age from 125 to 140 years old. Each comparable has a

basement finished with an apartment. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$47,060 to \$59,432 or from \$18.72 to \$19.29 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$50,536 or \$19.07 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,918. The subject property has an improvement assessment of \$64,168 or \$24.21 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within different neighborhood codes than the subject. The comparables are improved with class 2-11, 1.5-story or 2-story buildings of frame, masonry, or frame and masonry exterior construction ranging in size from 2,344 to 2,844 square feet of building area. The buildings range in age from 94 to 115 years old. Each comparable has a basement, one of which is finished with an apartment, and a two-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments ranging from \$45,050 to \$58,711 or from \$18.02 to \$20.64 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the board of review comparables due to differences in neighborhood code, age, unfinished basement, and/or garage when compared to the subject which lacks a garage.

The Board finds the best evidence of assessment equity to be the appellant's comparables. These comparables are similar to the subject in neighborhood code, age, building size, foundation, and features. These comparables have improvement assessments ranging from \$47,060 to \$59,432 or from \$18.72 to \$19.29 per square foot of building area. The subject's improvement assessment of \$64,168 or \$24.21 per square foot of building area falls above the range of the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
