

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Elizabeth Grace  
DOCKET NO.: 19-23699.001-R-1  
PARCEL NO.: 14-17-108-003-0000

The parties of record before the Property Tax Appeal Board are Elizabeth Grace, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$43,920  
**IMPR.:** \$81,908  
**TOTAL:** \$125,828

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 3,893 square feet of living area. The dwelling is approximately 112 years old. Features of the home include a finished basement, two fireplaces, and a 2-car garage. The property has a 9,150 square foot site located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same neighborhood code as the subject. The comparables are improved with class 2-06 dwellings of masonry exterior construction ranging in size from 3,184 to 3,714 square feet of living area. The dwellings are 93 or 115 years old. Three comparables have basements,

two of which have finished area. One comparable has a concrete slab foundation. Two comparables each have central air conditioning, and one comparable has a fireplace. Each comparable has either a 2-car, a 2.5-car or a 3-car garage. The comparables have improvement assessments ranging from \$62,578 to \$73,214 or \$19.65 and \$19.71 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$76,575 or \$19.67 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$125,828. The subject property has an improvement assessment of \$81,908 or \$21.04 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same neighborhood code as the subject. The comparables are improved with class 2-06, two-story dwellings of frame or masonry exterior construction ranging in size from 3,829 to 4,172 square feet of living area. The dwellings range in age from 120 to 132 years old and have basements, one of which has finished area. Three comparables each have central air conditioning, and three comparables each have a fireplace. Each comparable has either a 2.5-car, a 3-car, or a 4-car garage. The comparables have improvement assessments ranging from \$96,544 to \$106,424 or from \$24.65 to \$26.25 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2 through #4 due to their smaller dwelling size or lack of a basement, unlike the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and the board of review's comparables. These comparables are similar to the subject in location, dwelling size, age and foundation with varying degrees in other features. These five comparables have improvement assessments ranging from \$70,007 to \$106,424 or from \$19.65 to \$26.25 per square foot of living area. The subject's improvement assessment of \$81,908 or \$21.04 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
