

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Olga Porto
DOCKET NO.: 19-25729.001-R-1
PARCEL NO.: 18-04-328-015-0000

The parties of record before the Property Tax Appeal Board are Olga Porto, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,073
IMPR.: \$73,792
TOTAL: \$78,865

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 2,960 square feet of living area. The dwelling is approximately 32 years old. Features of the home include a full basement with finished area, central air conditioning, one fireplace and a two-car garage. The property has a 6,150 square foot site and is located in La Grange, Lyons Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-78 dwellings of masonry or frame and masonry exterior construction that range in size from 2,148 to 3,680 square feet of living area and range in age from 22 to 62 years

old. The comparables have full basements with two having finished area. Three comparables have central air conditioning; three comparable each have one fireplace; and each comparable has a two-car garage. The comparables have improvement assessments ranging from \$43,762 to \$67,932 or for \$18.46 to \$23.86 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$61,657 or \$20.83 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$78,865. The subject has an improvement assessment of \$73,792 or \$24.93 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same assessment neighborhood code as the subject. The comparables are improved with two-story, class 2-78 dwellings of frame, masonry, or frame and masonry exterior construction that range in size from 2,464 to 2,926 square feet of living area and range in age from 19 to 31 years old. Each comparable has a partial or full unfinished basement, central air conditioning, one fireplace, and a two-car garage. The comparables have improvement assessments ranging from \$62,931 to \$76,076 or from \$25.54 to \$26.61 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to differences from the subject dwelling in age and/or dwelling size.

The Board finds the best evidence of assessment equity to be the board of review comparables which are overall more similar to the subject in location, age, dwelling size and features. These comparables have improvement assessments ranging from \$62,931 to \$76,076 or from \$25.54 to \$26.61 per square foot of living area. The subject has an improvement assessment of \$73,792 or \$24.93 per square foot of living area, which falls within the range established by the best comparables in this record on overall an overall basis and below on a per square foot basis. Based on this evidence and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
