

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Giuseppe La Marca
DOCKET NO.: 19-26766.001-R-1
PARCEL NO.: 08-14-401-144-0000

The parties of record before the Property Tax Appeal Board are Giuseppe La Marca, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,704
IMPR.: \$49,534
TOTAL: \$51,238

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

Appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2,622 square foot parcel of land improved with a 43-year-old, three-story, masonry, multi-family dwelling, containing 5,067 square feet of living area. The property is located in Mount Prospect, Elk Grove Township, Cook County and is a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

Appellant contends overvaluation as the basis of the appeal. In support of its overvaluation argument, appellant submitted sales information of three comparable properties that sold between January and August of 2018 for prices ranging between \$96.72 to \$118.92 per square foot of living area, including land. The comparable sales properties were multi-family dwellings of either masonry or masonry and frame construction, and between 5,045 and 5,686 square feet of living area. Based on this evidence, appellant requested a reduction in the subject property's assessment to \$49,645.

The board of review submitted its "Board of Review Notes on Appeal" depicting a total assessed valuation of \$71,084, with an improvement assessment of \$69,380. The subject's assessment reflects a market value of \$710,840, or \$140.28 per square foot of living area, including land, when applying the level of assessment for class 2 property of 10.00% under the Cook County Real Property Assessment Classification Ordinance. In support of its contention of the correct assessment, the board of review submitted four sales comparable properties. The comparable properties were two-story, multi-family dwellings of either masonry or frame and masonry construction and ranged in size between 2,408 and 6,216 square feet of living area. The comparable properties sold between October 2017 and November 2019 for prices ranging between \$117.44 to \$311.46 per square foot of living area, including land.

Conclusion of Law

Appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds appellant did meet this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be appellant's sales comparables #1, #2, and #3, and board of review comparable #1. These comparables sold for prices ranging from \$96.72 to \$149.56 per square foot of living area, including land. The Board gives greater weight to appellant's sales comparables #1 and #2 as these two properties were closest to the subject property in living square footage and closest to it in proximity. They sold for prices ranging between \$96.72 to \$101.12 per square foot of living area, including land. The remaining comparables were given less weight due to being in either a different town and/or a different township than the subject property. The subject's current assessment of \$140.28 per square foot of living area, including land, reflects a market value within the market value range established by the best comparables in this record. However, the Board finds the subject property should be assessed at the lower end of the range closer to the two comparables most similar to it and given the most weight. Based on this record, the Board finds appellant has proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
