

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Larry Paul and Elizabeth Benoit
DOCKET NO.: 19-32126.001-R-1
PARCEL NO.: 09-18-104-018-0000

The parties of record before the Property Tax Appeal Board are Larry Paul and Elizabeth Benoit, the appellants; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,620
IMPR.: \$24,074
TOTAL: \$28,694

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of brick and frame exterior construction with 1,248 square feet of living area. The dwelling is approximately 78 years old.¹ Features include a full unfinished basement, central air conditioning, and a 2-car garage. The property has a 7,700 square foot site and is located in Des Plaines, Maine Township, Cook County. The subject is classified as a Class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellants submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The

¹ The parties differ slightly as to the age of the subject dwelling; however, the Board finds this discrepancy will not impact the Board's decision for this appeal.

comparables are improved with 1.5-story dwellings of brick or brick and frame exterior construction ranging from 1,070 to 1,185 square feet of living area. The dwellings range in age from 75 to 79 years old. The comparables each have unfinished basements, central air conditioning, and a garage ranging in size from 384 to 600 square feet. The comparables have improvement assessments ranging from \$15,817 to \$16,292 or from \$13.35 to \$15.23 per square foot of living area. Based on this evidence, the appellants requested that the subject's improvement assessment be reduced to \$17,135 or \$13.73 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,694. The subject property has an improvement assessment of \$24,074 or \$19.29 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with 1.5-story dwellings of frame and masonry exterior construction ranging in size from 1,059 to 1,224 square feet of living area. The dwellings range in age from 74 to 80 years old. Each comparable has a full unfinished basement and from a 1-car to a 2.5-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$26,197 to \$26,853 or from \$21.70 to \$24.74 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

The appellants submitted a rebuttal critiquing the board of review comparables and evidence. The appellants also submitted a table that compared 2018 and 2019 assessments of the subject and both parties' comparables to support their argument for inequitable assessment.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellants' comparable #3 and the board of review comparable #1 which are smaller in dwelling size than the other comparables when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be both parties' remaining comparables. These five comparables are similar to the subject in location, design, age, dwelling size, foundation, and other features. These five comparables have improvement assessments ranging from \$15,817 to \$26,853 or from \$13.35 and \$22.71 per square foot of living area. The subject's improvement assessment of \$24,074 or \$19.29 per square foot of living area falls with the range established by the best comparables contained in this record. After considering adjustments to the comparables for differences with the subject, the Board finds the appellants

did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
