

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patrick Garvey
DOCKET NO.: 19-32349.001-R-1
PARCEL NO.: 04-25-313-035-0000

The parties of record before the Property Tax Appeal Board are Patrick Garvey, the appellant(s), by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,702
IMPR.: \$46,011
TOTAL: \$65,713

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

Appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a single-family, one-story dwelling of masonry construction containing 2,814 square feet of living area. As of the instant lien date the subject was approximately 61 years old. Features of the home include a full formal recreation room basement, central air conditioning, and a two-car garage. The subject has a 17,133 square foot site and is in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

Appellant's appeal is based on assessment equity, and Appellant submitted information on five suggested comparable one-story dwellings. Four are frame construction, and one is frame-and-masonry. All have air conditioning. As of the lien date, Appellant's comparables ages range from 64 to 77 years old. Appellant's comparables range in size from 1,813 square feet to 2,638 square feet of living area and improvement assessments from \$12.28 to \$15.46 per square foot of living

area. Each comparable has the same neighborhood code as the subject property, with no further evidence on proximity to subject.

The Cook County Board of Review (BOR) submitted its “Board of Review Notes on Appeal” wherein the subject’s final assessment of \$65,713 was disclosed. The subject has a total improvement assessment of \$46,011 or \$16.35 per square foot of living area.

The BOR submitted two equity comparables in support of its final assessment. The properties are described as one and 1.5-story dwellings, with one located within a quarter mile of the subject and the other within the same subarea as the subject. Both BOR comparables share the same neighborhood code as the subject. One is masonry construction, and the other is frame-and-masonry. Both have air conditioning. As of the lien date the BOR comparables range from 59 to 62 years old. The comparables range from 3,084 to 3,188 square feet of building area and have improvement assessments from \$18.13 to \$18.58 per square foot of building area.

Conclusions of Law

Appellant contends assessment inequity as the basis of the appeal.

As a preliminary matter, Appellant also checked “Contention of Law” on the petition. However, Appellant only submitted argument and evidence that the subject property was inequitably assessed. Appellant’s petition lacks any other substantive legal argument. “If contentions of law are raised, the contesting party shall submit a brief in support of his position with the petition.” PTAB Rules §1910.30(h). Therefore, the Board will proceed on the basis of the evidence presented.

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds Appellant *did not meet* this burden of proof and a reduction in the subject's assessment *is not* warranted.

The Board finds the best evidence of assessment equity to be BOR comparables 1 and 2 and Appellant comparable 3. All three comparables are similar to the subject’s size. BOR comparable 1 is masonry construction, same as the subject. Appellant comparable 4 is frame, and BOR comparable 2 is frame-and-masonry. The Board also takes note that BOR comparable 3 is within a quarter mile of the subject. Appellant did not disclose the presented comparables’ proximities to the subject.

These comparables have improvement assessments that range from \$13.14 to \$18.58 per square foot of living area. The subject's improvement assessment of \$16.35 per square foot of living area falls within the range established by the best comparables in this record.

Based on this record, the Board finds Appellant *did not* demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment *is not* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
