

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Otilia Allen
DOCKET NO.: 19-32350.001-R-1
PARCEL NO.: 04-35-115-012-0000

The parties of record before the Property Tax Appeal Board are Otilia Allen, the appellant(s), by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,884
IMPR.: \$35,135
TOTAL: \$48,019

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

Appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a single-family, multi-level dwelling of masonry construction containing 1,648 square feet of living area. As of the instant lien date the subject was approximately 43 years old. Features of the home include a partial formal recreation room basement, central air conditioning, and a two-car garage. The subject has a 9,911 square foot site and is in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

Appellant's appeal is based on assessment equity, and Appellant submitted information on three suggested comparable multi-level dwellings. One is frame construction, one is frame-and-masonry, and the other is masonry. One lacks air conditioning. As of the lien date, Appellant's comparables ages range from 54 to 64 years old. Appellant's comparables range in size from 1,866 square feet to 2,126 square feet of living area and improvement assessments from \$16.96 to \$18.13

per square foot of living area. Each comparable has the same neighborhood code as the subject property, with no further evidence on proximity to subject.

The Cook County Board of Review (BOR) submitted its “Board of Review Notes on Appeal” wherein the subject’s final assessment of \$48,019 was disclosed. The subject has a total improvement assessment of \$35,135 or \$21.32 per square foot of living area.

The BOR submitted four equity comparables in support of its final assessment. The properties are described as multi-level dwellings, with three located within a quarter mile of the subject; the BOR did not disclose the proximity of the fourth. All four BOR comparables share the same neighborhood code as the subject. All are frame-and-masonry construction. Two lack air conditioning. As of the lien date the BOR comparables range from 57 to 60 years old. The comparables range from 1,539 to 1,799 square feet of building area and have improvement assessments from \$21.34 to \$24.71 per square foot of building area.

Conclusions of Law

Appellant contends assessment inequity as the basis of the appeal.

As a preliminary matter, Appellant also checked “Contention of Law” on the petition. However, Appellant only submitted argument and evidence that the subject property was inequitably assessed. Appellant’s petition lacks any other substantive legal argument. “If contentions of law are raised, the contesting party shall submit a brief in support of his position with the petition.” PTAB Rules §1910.30(h). Therefore, the Board will proceed on the basis of the evidence presented.

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds Appellant *did not meet* this burden of proof and a reduction in the subject's assessment *is not* warranted.

The Board finds the best evidence of assessment equity to be BOR comparables 1, 2, and 3 and Appellant comparable 2. All four comparables are similar to the subject’s size. All four comparables are frame-and-masonry construction while the subject is masonry. The Board also takes note that the three BOR comparables are within a quarter mile of the subject. Appellant did not disclose the presented comparables’ proximities to the subject.

These comparables have improvement assessments that range from \$17.36 to \$24.71 per square foot of living area. The subject's improvement assessment of \$21.32 per square foot of living area falls within the range established by the best comparables in this record.

Based on this record, the Board finds Appellant *did not* demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment *is not* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
