

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Adams Building Account
DOCKET NO.: 19-36156.001-R-1
PARCEL NO.: 15-13-209-001-0000

The parties of record before the Property Tax Appeal Board are Adams Building Account, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,062
IMPR.: \$39,984
TOTAL: \$44,046

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story building of masonry exterior construction with 4,800 square feet of building area. The building is approximately 94 years old. Features of the building include an unfinished basement. The property has a 6,250 square foot site and is located in Forest Park, Proviso Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of masonry exterior construction that range in size from 4,851 to 5,457 square feet of building area. The buildings range in age from 46 to 53 years old. Each comparable has a full basement with a finished apartment. The comparables

have improvement assessments ranging from \$37,270 to \$40,382 or from \$7.40 to \$7.68 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$36,144 or \$7.53 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$44,046. The subject property has an improvement assessment of \$39,984 or \$8.33 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code and block as the subject. The comparables are improved with two-story class 2-11 buildings of frame, masonry or frame and masonry exterior construction that range in size from 2,128 to 2,358 square feet of building area. The buildings range in age from 104 to 110 years old. Each comparable has a full basement with one finished with a recreation room. Three comparables each have a two-car garage. The comparables have improvement assessments that range from \$20,019 to \$23,541 or from \$9.32 to \$10.64 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables to the Board for consideration which are similar in location and design to the subject. However, the Board finds that none of the comparables are truly similar to the subject in both age and dwelling size. The appellant's comparables are significantly newer and the board of review comparables are significantly smaller than the subject. In addition, one comparable has central air conditioning and three comparables have garages, unlike the subject. Nevertheless, the comparables have improvement assessments ranging from \$20,019 to \$40,382 or from \$7.40 to \$10.64 per square foot of living area. The subject's improvement assessment of \$39,984 or \$8.33 per square foot of living area falls within the range established by the comparables in the record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
