Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels improved with a two-story building of frame exterior construction with 1,428 square feet of building area. The building is approximately 140 years old. Features of the subject property include a concrete slab foundation. The property has a combined 2,832 square foot site located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of frame exterior construction that range in size from 1,764 to 1,974 square feet of building area and are either 125 or 128 years old. Each

comparable has a concrete slab foundation. The comparables have improvement assessments ranging from \$26,359 to \$34,476 or from \$14.33 to \$18.39 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$24,476 or \$17.14 per square foot of building area.

The appellant submitted a copy of the final decision of the Cook County Board of Review dated February 29, 2020 for the 2019 assessment year concerning the two parcels which depicts assessments of \$35,973 for Parcel #1 (PIN 17-08-114-086-0000) and \$4,814 for Parcel #2 (PIN 17-08-114-085-0000). The subject's two parcels have a combined total assessment of \$40,787 and a total improvement assessment of \$31,159 or \$21.82 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" providing assessment information on only one parcel under appeal. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with two-story class 2-11 buildings of frame exterior construction that range in size from 1,344 to 1,560 square feet of building area and in age from 128 to 150 years old. Two comparables each have a concrete slab or crawl space foundation and two comparables each have a full basement, one of which has finished area. Two comparables each have a two-car garage. The comparables have improvement assessments ranging from \$30,742 to \$37,229 or from \$22.87 to \$24.23 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and the board of review comparables #2 and #3 due to their larger dwelling sizes or basement foundations when compared to the subject. The Board finds the best evidence of assessment equity to be the board of review comparables #1 and #4 which are relatively similar to the subject in age, dwelling size and features, except one comparable has a garage unlike the subject. Nevertheless, these comparables have improvement assessments of \$30,742 and \$35,706 or \$22.87 and \$23.84 per square foot of building area. The subject property's improvement assessment of \$31,159 or \$21.82 per square foot of building area is bracketed by the assessments of the two best comparables in this record on an overall basis but below on a per square foot basis. After considering adjustments to the two best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
