

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Peter and Joan Papadopoulos
DOCKET NO.: 19-37854.001-R-1
PARCEL NO.: 04-25-402-020-0000

The parties of record before the Property Tax Appeal Board are Peter and Joan Papadopoulos, the appellants, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,110
IMPR.: \$55,763
TOTAL: \$68,873

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame and masonry exterior construction with 3,026 square feet of living area. The dwelling is approximately 58 years old. Features of the home include a crawl space foundation, central air conditioning, a fireplace and a 2.5-car garage. The property has an 11,400 square foot site and is located in Wilmette, Northfield Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument the appellants submitted information on seven equity comparables located in the same neighborhood code as the subject property. The comparables are improved with 1-story or 1.5-1.9 story, class 2-04 dwellings of frame, masonry or frame and masonry exterior construction that range in size from 2,280 to 3,262 square feet of

living area. The homes range in age from 37 to 66 years old. Six comparables have basements, two with finished area and one comparable has a concrete slab foundation. Each comparable has a 2-car or a 2.5-car garage, five comparables have central air conditioning and five comparables each have one or two fireplaces. The comparables have improvement assessments ranging from \$15,886 to \$52,812 or from \$6.71 to \$17.90 per square foot of living area. Based on this evidence, the appellants requested the subject's improvement assessment be reduced to \$44,616.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$68,873. The subject property has an improvement assessment of \$55,763 or \$18.43 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with 1-story or 1.5-story, class 2-04 dwellings of masonry or frame and masonry exterior construction that range in size from 2,639 to 2,919 square feet of living area. The homes range in age from 50 to 60 years old. Each comparable has a basement, one with finished area, central air conditioning, one fireplace and a 2-car garage. The comparables have improvement assessments that range from \$48,982 to \$59,387 or from \$18.43 to \$20.34 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellants contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eleven comparables for the Board's consideration. The Board gave less weight to the appellants' comparables #1, #2, #4, #5, #6 and #7 along with board of review comparable #1 which differ from the subject in dwelling size, age and/or finished basement.

The Board finds the best evidence of assessment equity to be the remaining comparables which are more similar to the subject in location, age and dwelling size. These comparables have improvement assessments that range from \$50,259 to \$59,387 or from \$16.19 to \$20.34 per square foot of living area. The subject's improvement assessment of \$55,763 or \$18.43 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences with the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
