

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Brandon and Julie Hall
DOCKET NO.: 19-38802.001-R-1
PARCEL NO.: 14-31-138-009-0000

The parties of record before the Property Tax Appeal Board are Brandon and Julie Hall, the appellants, by attorney Joanne Elliott, of Elliott & Associates Attorneys, PLLC in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,920
IMPR.: \$76,580
TOTAL: \$87,500

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-year-old, two-story, single-family dwelling of frame construction with 2,039 square feet of living area. Features of the home include a full basement with a recreation room, central air conditioning, two fireplaces and a two-car garage. The property has a 2,400 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend overvaluation as the basis of the appeal. In support of this argument the appellants submitted an appraisal estimating the subject property had a market value of \$875,000 as of January 1, 2019. The appraisal relied on the sales comparison approach, and it contained information on four comparable sales. The comparable properties sold between February 2018 and July 2018. The comparable properties ranged: in price between \$885,000 to \$925,000; in

size between 1,822 to 2,561 square feet of living area; and in sale price per square foot between \$345.57 to \$496.24, including land.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$97,659. The subject's assessment reflects a market value of \$976,590 or \$478.96 per square foot of living area, including land, when applying the level of assessment for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales. All were improved with a two-story, single-family dwelling either masonry or frame construction with a full basement with a recreation room and central air conditioning. The improvements were all four years old and ranged: in size between 2,214 and 2,646 square feet of living area; and in sale price per square foot between \$527.00 and \$609.76, including land. All comparables were located within a quarter mile of the subject property, while two were located within a block.

Conclusion of Law

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

Initially, the Board finds the appellants' assertion that a 9.46% level of assessment figure allegedly derived from an Illinois Department of Revenue's sales ratio study should apply is misguided. Under 86 Ill.Admin.Code §1910.50(c)(2), an appellant must provide the Department of Revenue's sales ratio studies for the previous three years or other competent assessment level evidence to challenge the assessment level. The appellants provided no such evidence. Accordingly, the Board will apply the assessment level as established by the Cook County Real Property Assessment Classification Ordinance of 10% to any market value established by the Board.

The Board finds that the best evidence of the subject's market value is the appraisal submitted by the appellants. That appraisal employed the sales comparison approach, relying upon recent sales of four suggested comparable properties. The appraisal stated that the sale prices of the suggested comparable properties were adjusted to account for differences between them and the subject, and the appraiser determined that the subject's market value was \$875,000. In contrast, the board of review's evidence consists of unadjusted data concerning comparable properties.

Accordingly, the Board finds the subject property had a market value of \$875,000 as of the assessment date at issue. Based on the evidence, the Board therefore finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
