

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ian Murray
DOCKET NO.: 19-40658.001-R-1
PARCEL NO.: 13-24-208-004-0000

The parties of record before the Property Tax Appeal Board are Ian Murray, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,184
IMPR.: \$31,343
TOTAL: \$39,527

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 1,234 square feet of living area. The dwelling is approximately 60 years old. Features of the home include an unfinished basement and a 2-car garage. The property has a 3,720 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on six equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-03 dwellings of masonry exterior construction that range in size from 1,000 to 1,295 square feet of living area. The homes range in age from 51 to 88 years old. Each comparable has an unfinished basement and a 2-car garage. The comparables

have improvement assessments ranging from \$20,429 to \$28,309 or from \$20.43 to \$21.86 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$25,803 or \$20.91 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$39,527. The subject property has an improvement assessment of \$31,343 or \$25.40 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with one-story class 2-03 dwellings of masonry exterior construction that range in size from 1,020 to 1,123 square feet of living area. The homes range in age from 50 to 60 years old. Each comparable has a basement, one with finished area and a 1-car or a 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments that range from \$29,140 to \$43,518 or from \$27.23 to \$41.26 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted ten equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #6 along with board of review comparable #4 due to differences with the subject in age and finished basement, respectively.

The Board finds the best evidence of assessment equity to be the remaining comparables which are similar to the subject in location, age, design and most features, except each of these properties have a smaller dwelling size when compared to the subject. The best comparables had improvement assessments that ranged from \$20,429 to \$43,518 or from \$20.43 to \$41.26 per square foot of living area. The subject's improvement assessment of \$31,343 or \$25.40 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
