

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dorothy Stevens
DOCKET NO.: 19-40678.001-R-1
PARCEL NO.: 13-13-124-019-0000

The parties of record before the Property Tax Appeal Board are Dorothy Stevens, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,000
IMPR.: \$47,240
TOTAL: \$56,240

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of masonry exterior construction with 2,485 square feet of building area. The building is approximately 109 years old. Features of the building include a partial unfinished basement and a two-car garage. The property has a 3,750 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on eight equity comparables that are located within the same neighborhood code as the subject property. The comparables are each improved with class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,622 to 3,136 square feet of building area. The buildings

range in age from 94 to 102 years old. Each comparable has a partial or a full unfinished basement and a two-car garage. The comparables have improvement assessments ranging from \$38,648 to \$46,789 or from \$14.39 to \$14.92 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$36,380 or \$14.64 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$56,240. The subject property has an improvement assessment of \$47,240 or \$19.01 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables which are located within the same neighborhood code as the subject property. The comparables are improved with two-story class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,122 to 2,304 square feet of building area. The buildings range in age from 104 to 110 years old. Two comparables have full unfinished basements and one comparable has a concrete slab foundation. Three comparables have either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$43,670 to \$50,227 or from \$20.58 to \$22.18 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eleven suggested comparables for the Board's consideration. The Board gives less weight to the appellant comparables #2 and #4 through #8 for their newer ages and/or larger building size when compared to the subject. The Board gives less weight to the board of review comparable #1 due to its lack of a basement when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #3, as well as the board of review comparables #2 and #3. These comparables have varying degrees of similarity to the subject in age, building size and features. These comparables have improvement assessments ranging from \$39,544 to \$50,127 or from \$14.39 to \$22.18 per square foot of building area. The subject property's improvement assessment of \$47,240 or \$19.01 per square foot of building area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the two best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
