

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sophie Tabor
DOCKET NO.: 19-40682.001-R-1
PARCEL NO.: 12-11-114-015-0000

The parties of record before the Property Tax Appeal Board are Sophie Tabor, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,003
IMPR.: \$61,722
TOTAL: \$68,725

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story multi-family building of masonry exterior construction with 6,351 square feet of building area. The building is approximately 48 years old. Features of the building include an unfinished basement. The property has a 5,603 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same neighborhood code as the subject property. The comparables are improved with class 2-11 multi-family buildings of masonry exterior construction ranging in size from 6,121 to 6,864 square feet of building area. The comparables range in age from 41 to 49 years old. Each comparable has an unfinished basement. One comparable has a 2-car garage.

The comparables have improvement assessments ranging from \$47,003 to \$58,062 or from \$7.44 to \$8.68 square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$52,777 or \$8.31 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$68,725. The subject property has an improvement assessment of \$61,722 or \$9.72 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same neighborhood code as the subject. In addition, each comparable is located within the same block with two comparables also on the same street as the subject property. The comparables are improved with 3-story multi-family class 2-11 buildings of masonry exterior construction each with 6,351 square feet of building area. The buildings are 48 years old. Each comparable has an unfinished basement. The comparables have improvement assessments ranging from \$62,562 to \$64,974 or from \$9.85 to \$10.23 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested comparable sales for the Board's consideration. The Board finds the parties' comparables to be similar in many respects; however, the Board has given lesser weight to the appellant's comparables which differ from the subject in age and dwelling size. In addition, the appellant's comparable #3 has a garage which the subject lacks. The board of review comparables are identical to the subject in age, dwelling size, and features, as well as being located within the same block as the subject. The most similar properties have improvement assessments ranging from \$62,562 to \$64,974 or from \$9.85 to \$10.23 per square foot of building area. The subject's assessment of \$61,722 or \$9.72 per square foot of building area falls below the range of the most similar comparables in this record. Based on this evidence, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
