

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Matthew Levy
DOCKET NO.: 19-47708.001-R-1
PARCEL NO.: 32-18-102-020-0000

The parties of record before the Property Tax Appeal Board are Matthew Levy, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,484
IMPR.: \$24,788
TOTAL: \$36,272

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry construction with 3,727 square feet of living area. The dwelling is approximately 60 years old. Features of the home include an unfinished partial basement, central air conditioning, one fireplace, and a 1-car garage. The property has a 41,760 square foot site located in Olympia Fields, Bloom Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-04 dwellings of frame and masonry exterior construction ranging in size from 3,107 to 4,444 square feet of living area. The dwellings range in age from

41 to 56 years old. Each comparable has a partial basement with two having finished area, central air conditioning, one or two fireplaces, and a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$11,158 to \$20,260 or from \$2.56 to \$5.13 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$15,318 or \$4.11 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$36,272. The subject property has an improvement assessment of \$24,788 or \$6.65 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same neighborhood code as the subject. The comparables are improved with 1-story or 1.5-story, class 2-04 dwellings of masonry or frame and masonry exterior construction ranging in size from 1,914 to 3,145 square feet of living area. The dwellings range in age from 55 to 62 years old. Two comparables each have an unfinished partial basement and two comparables have either a crawl space or concrete slab foundation. Three comparables each have central air conditioning. Each comparable has one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$14,485 to \$23,580 or from \$7.07 to \$7.77 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds none of the parties' suggested comparables are truly similar to the subject due to differences in basement finish, dissimilar design, lack of a basement foundation, newer ages, and/or dissimilar dwelling sizes. Nevertheless, these comparables have improvement assessments ranging from \$11,158 to \$23,580 or from \$2.56 to \$7.77 per square foot of living area. The subject's improvement assessment of \$24,788 or \$6.65 per square foot of living area falls within the range established by the comparables in this record on a per square foot basis. Based on the record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
