

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marion Gal  
DOCKET NO.: 19-49985.001-R-1  
PARCEL NO.: 13-06-227-055-0000

The parties of record before the Property Tax Appeal Board are Marion Gal, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,158  
**IMPR.:** \$19,599  
**TOTAL:** \$24,757

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1.5-story dwelling of masonry construction with 1,060 square feet of living area. The dwelling is approximately 71 years old. Features of the home include a full finished basement, central air conditioning and a detached 2-car garage. The property has a 3,224 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted assessment information on eight comparable properties that are located within the same neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of frame or masonry construction ranging in size from 1,126 to 1,308 square feet of living area. The dwellings range

in age from 57 to 110 years old. Six comparables have full basements, one of which has finished area, and two comparables have slab foundations. One comparable has central air conditioning and seven comparables have a 1-car or 2-car garage. The comparables have improvement assessments ranging from \$14,800 to \$22,349 or from \$12.34 to \$17.09 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$24,757. The subject has an improvement assessment of \$19,599 or \$18.49 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted assessment information on four comparable properties that are located within the same neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of masonry construction ranging in size from 1,119 to 1,257 square feet of living area. The dwellings range in age from 77 to 89 years old. The comparables have full basements, two of which have finished area, and a 2-car garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$22,288 to \$32,119 or from \$19.19 to \$28.70 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity with respect to the subject's improvement as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of 12 comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #3, #6 and #7, due to their lack of a basement foundation, their significantly older dwelling or their lack of a garage, when compared to the subject. The Board finds the parties' remaining comparables have varying degrees of similarity to the subject. However, six of the parties' best comparables lack central air conditioning, unlike the subject. Nevertheless, the best comparables have improvement assessments ranging from \$14,800 to \$32,119 or from \$12.34 to \$28.70 per square foot of living area. The subject's improvement assessment of \$19,599 or \$18.49 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is well supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
