

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Benjamin Dohmen
DOCKET NO.: 19-54474.001-R-1
PARCEL NO.: 14-20-322-008-0000

The parties of record before the Property Tax Appeal Board are Benjamin Dohmen, the appellant(s), by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 19,200
IMPR.: \$ 91,093
TOTAL: \$110,293

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year after receiving a decision from the Cook County Board of Review. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story, masonry dwelling with 4,899 square feet of living area. The dwelling is 140 years old and is situated on a 3,000 square foot parcel of land. It is located in Lakeview Township, Cook County and is classified as a Class 2 property under the Cook County Real Property Assessment Classification Ordinance. The appellant stated the subject property is not owner-occupied, although they requested a rollover reduction.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables. The suggested comparables range in improvement assessment per square foot of living area from \$10.10 to \$13.57 psf. The appellant supplied printouts from the assessor's website reflecting descriptive data for the subject and comparables. The data indicates that the subject is not owner-occupied,

as does the appellant's appeal form. Based on this evidence, the appellant requested an assessment reduction.

The board of review submitted its "Board of Review-Notes on Appeal" disclosing the total assessment for the subject of \$110,293. The subject property has an improvement assessment of \$91,093, or \$18.59 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables. They ranged in improvement assessment per square foot from \$19.00 to \$21.54 psf. The sale of the subject in December 2017 for \$1,680,000 was also reflected on the grid sheet. In support, the board of review included a copy of the "deed trail" from the Cook County Recorder of Deed's website as well as a copy of the recorded mortgage amount. The documents reflect that the subject is owned by 3307 North Southport Acquisitions LLC.

The board of review also provided evidence that the appellant is not receiving a homeowner's exemption. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparable(s) #1 and #5, as well as the board of review's comparable(s) #1 through #4. These comparables are most similar to the subject property based on a combination of location, construction, age and design. They had improvement assessments that ranged from \$10.10 to \$21.54 per square foot of living area. The subject's assessment of \$18.59 per square foot of living area falls within the range established by the best comparables contained in this record. Accordingly, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

As a final point, the appellant is not entitled to an assessment reduction under section 16-185 of the Property Tax Code as both parties offered evidence that the subject is not owner-occupied.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
