

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Agatha Jaworski
DOCKET NO.: 19-55357.001-R-1
PARCEL NO.: 14-07-224-017-0000

The parties of record before the Property Tax Appeal Board are Agatha Jaworski, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,801
IMPR.: \$37,670
TOTAL: \$53,471

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Property Tax Appeal Board pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of masonry exterior construction with 2,212 square feet of building area. The building is approximately 111 years old. Features of the home include an unfinished basement, central air conditioning, and a 2-car garage. The property has a 3,435 square foot site and is located in Chicago, Lakeview Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-11, 2-story multi-family buildings that range in age from 109 to 118 years old. The buildings range in size from 2,128 to 2,272 square feet of building area. One comparable has a fireplace.

Three comparables each have a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$28,521 to \$32,854 or from \$13.06 to \$14.47 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$53,471. The subject has an improvement assessment of \$37,670 or \$17.03 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the same assessment neighborhood code as the subject property, one of which is on the same block as the subject. The comparables are improved with class 2-11, two-story multi-family buildings of masonry exterior construction ranging in size from 2,218 to 2,384 square feet of building area. The buildings are from 104 to 110 years old. The comparables have basements, two of which have finished area. Each comparable has a 2-car garage. The comparables have improvement assessments that range from \$43,024 to \$44,122 or from \$18.25 to \$19.42 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board has given less weight to appellant's comparables #1 and #3 which lack a garage, a feature of the subject. The Board gives less weight to board of review comparables #2 and #3 which have finished basement area, a feature the subject lacks.

The Board finds the best evidence of assessment equity to be appellant's comparables #2, #4 and #5 along with board of review comparable #1 which are similar to the subject in location, age, design, building size and some features with the exception that the comparables lack central air conditioning, a feature of the subject. These comparables have improvement assessments that range from \$29,182 to \$43,074 or from \$13.71 to \$19.42 per square foot of building area. The subject's improvement assessment of \$37,670 or \$17.03 per square foot of building area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
