

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Scott Olson  
DOCKET NO.: 20-00948.001-R-1  
PARCEL NO.: 13-15-404-038

The parties of record before the Property Tax Appeal Board are Scott Olson, the appellant, by attorney Ronald Kingsley of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$43,079  
**IMPR.:** \$95,241  
**TOTAL:** \$138,320

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of brick and wood siding exterior construction with 2,353 square feet of living area.<sup>1</sup> The dwelling was constructed in 1969. Features of the home include a basement finished with a recreation room, central air conditioning, a fireplace and a 506 square foot garage. The property has a 46,448 square foot site and is located in Lake Barrington, Cuba Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales with the same assessment neighborhood code as the subject and located from .16 of a mile to 1.32 miles from the subject property. The comparables have sites that range in size from 40,665 to 85,350 square feet of

land area. The comparables are improved with one-story dwellings of brick or frame exterior construction ranging in size from 1,890 to 2,709 square feet of living area. The dwellings were built from 1960 to 1978 with comparable #5 having a reported effective age of 1974. The comparables each have a basement, three of which have finished area. Each comparable has a central air conditioning and one or two fireplaces. Four comparables each have a garage ranging in size from 540 to 930 square feet of building area. Comparables #3 and #4 each have an inground swimming pool and either a bath house or a pool house. The comparables sold from May 2019 to July 2020 for prices ranging from \$260,000 to \$455,000 or from \$118.54 to \$203.70 per square foot of living area, including land. The appellant provided listing sheets for comparables #3 and #4 indicating the dwellings were rehabbed in 2010 and 2016, respectively. The appellant's counsel noted differences between the comparables and the subject. Based on this evidence, the appellant requested the subject's assessment be reduced to \$127,834, which would reflect a market value of \$383,540 or \$163.00 per square foot of living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$138,320. The subject's assessment reflects a market value of \$415,500 or \$176.58 per square foot of living area, land included, when using the 2020 three-year average median level of assessment for Lake County of 33.29% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on three comparable sales with the same assessment neighborhood code as the subject and located from 1.17 to 1.42 miles from the subject property. The comparables have sites that range in size from 47,910 to 67,150 square feet of land area. The comparables are improved with one-story dwellings of wood siding or wood siding and brick exterior construction ranging in size from 2,169 to 2,672 square feet of living area. The dwellings were built from 1962 to 1978 with comparable #2 having a reported effective age of 1964. The comparables each have a basement, two of which are finished with a recreation room. Each comparable has central air conditioning, one or two fireplaces and a garage ranging in size from 660 to 1,344 square feet of building area. Comparable #3 has an inground swimming pool. The comparables sold from September 2019 to December 2020 for prices ranging from \$422,000 to \$632,500 or from \$194.56 to \$236.71 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of eight suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #3, #4 and #5, as well as board of review comparable #3 due to their dissimilar dwelling sizes when compared to the subject

and/or they have an inground swimming pool, not a feature of the subject. Furthermore, the appellant's comparables #3 and #4 have either a bath house or a pool house, unlike the subject. In addition, the appellant's comparable #3 has no garage as does the subject. The Board has given reduced weight to board of review comparable #1, which appears to be an outlier due to its higher sale price when compared to the other comparable sales in the record.

The Board finds the best evidence of market value to be the appellant's comparables #1 and #2, along with board of review comparable #2. The Board finds these comparables are relatively similar to the subject in location, dwelling size, design, age and some features. The comparables sold from September 2019 to December 2020 for prices ranging from \$260,000 to \$422,000 or from \$118.54 to \$194.56 per square foot of living area, including land. The subject's assessment reflects a market value of \$415,500 or \$176.58 per square foot of living area, including land, which falls within the range established by the best comparables in the record both in terms of overall market value and on a price per square foot basis. Based on this record and after considering adjustments to the comparables for differences from the subject, the Board finds no reduction in the subject's estimated market value as reflected by its assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
