

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Beth Miller
DOCKET NO.: 20-01406.001-R-1
PARCEL NO.: 16-28-410-017

The parties of record before the Property Tax Appeal Board are Beth Miller, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 35,363
IMPR.: \$145,593
TOTAL: \$180,956

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of brick and wood siding exterior construction with 1,930 square feet of living area. The dwelling was built in 1988 and is approximately 32 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a 484 square foot garage. The property has an approximately 3,249 square foot site and is located in Highland Park, West Deerfield Township, Lake County.

The appellant contends lack of assessment equity as the basis of the appeal concerning the improvement assessment. In support of this argument, the appellant submitted information on three comparables located within the same neighborhood code as the subject and also on the same street as the subject. The comparables are described as one-story dwellings of brick exterior construction with 1,930 square feet of living area. The dwellings are 32 years old and has a partial basement, one of which has finished area. Each dwelling has central air

conditioning, a fireplace and a garage containing 484 square feet of building area. The comparables have improvement assessments ranging from \$138,605 to \$142,474 or from \$71.82 to \$73.82 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$140,182 or \$72.63 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$180,956. The subject property has an improvement assessment of \$145,593 or \$75.44 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the same neighborhood code as the subject and on the same street as the subject. The comparables are described as one-story dwellings of brick and wood siding exterior construction with 1,930 square feet of living area. The dwellings are 32 years old having been built in 1988. Each home has a partial unfinished basement, central air conditioning, a fireplace and a garage with containing 484 square feet of building area. The comparables have improvement assessments ranging from \$146,253 to \$148,334 or from \$75.78 to \$76.86 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of six equity comparables that were nearly identical to the subject property for the Board's consideration. The Board has given reduced weight to appellant's comparable #1 which has finished basement area which is not a feature of the subject dwelling.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #3 along with the board of review comparables which are each similar to the subject in location, age, design, size, foundation and features. These five comparables have improvement assessments that range from \$139,527 to \$148,334 or from \$72.29 to \$76.86 per square foot of living area. The subject's improvement assessment of \$145,593 or \$75.44 per square foot of living area falls within the range established by the best comparables in this record both in terms of overall improvement assessment and on a per-square-foot basis. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
