

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Losoff  
DOCKET NO.: 20-01456.001-R-1  
PARCEL NO.: 16-29-406-041

The parties of record before the Property Tax Appeal Board are Paul Losoff, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$34,034  
**IMPR.:** \$135,712  
**TOTAL:** \$169,746

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of wood siding exterior construction with 2,404 square feet of living area. The dwelling was constructed in 1948 and is 72 years old. Features of the home include a partial unfinished basement, central air conditioning and an attached 242 square foot garage. The property has an approximately 6,650 square foot site and is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject property. The comparables are improved with 1.8-story or 2-story dwellings of wood siding exterior construction that range in size from 2,128 to 2,835 square feet of living area and range in age from 90 to 110 years old. The comparables each have a slab foundation, central air conditioning,

one fireplace and a detached garage ranging in size from 400 to 784 square feet of building area. The comparables have improvement assessments that range from \$104,144 to \$128,460 or from \$41.23 to \$48.94 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$108,119.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$169,746. The subject property has an improvement assessment of \$135,712 or \$56.45 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject property. The comparables are improved with 2-story dwellings of brick, wood siding, or brick and wood siding exterior construction ranging in size from 2,048 to 2,448 square feet of living area. The homes were built from 1929 to 1950. The comparables have partial or full basements, one of which is finished with a 146 square foot recreation room. Each comparable has central air conditioning, one or two fireplaces, and an attached or a detached garage that ranges in size from 290 to 576 square feet of building area. The comparables have improvement assessments that range from \$127,635 to \$148,727 or from \$52.74 to \$62.94 per square foot of living area. The board of review noted county comparables have basements while the appellant's comparables have no basements. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to difference in foundation type when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables which have basements and are relatively similar to the subject in design, dwelling size and other features. These comparables have improvement assessments ranging from \$127,635 to \$148,727 or from \$52.74 to \$62.94 per square foot of living area. The subject's improvement assessment of \$135,712 or \$56.45 per square foot of living area is within the range established by the best equity comparables in the record. Therefore, after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
