

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Georgia Kyriacou
DOCKET NO.: 20-01464.001-R-1
PARCEL NO.: 16-04-401-011

The parties of record before the Property Tax Appeal Board are Georgia Kyriacou, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$95,127
IMPR.: \$140,000
TOTAL: \$235,127

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of brick exterior construction containing 2,824 square feet of living area. The dwelling was built in 1965 and is approximately 55 years old. Features of the home include a full basement with a 1,200 square foot recreation room, central air conditioning, two fireplaces and an attached garage with 511 square feet of building area. The subject property has a 19,950 square foot site located in Lake Forest, West Deerfield Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with two-story dwellings of wood siding or brick exterior construction ranging in size from 2,347 to 3,176 square feet of living area. The dwellings range in age from 53 to 58 years old. Each comparable has a full basement with one having finished area, central

air conditioning, one fireplace and an attached garage ranging in size from 440 to 667 square feet of building area. The comparables are located from approximately .08 to .93 of one mile from the subject property. These properties have improvement assessments ranging from \$86,136 to \$117,246 or from \$36.12 to \$41.99 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$108,088.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$235,127. The subject property has an improvement assessment of \$140,000 or \$49.58 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on five equity comparables with comparable #2 being the same property as appellant's comparable #3. The comparables are improved with two-story dwellings of brick or wood siding exterior construction that range in size from 2,685 to 3,118 square feet of living area. The comparables were built from 1962 to 1965. Each comparable has a full basement finished with a recreation room ranging in size from 230 to 1,305 square feet, central air conditioning, one or two fireplaces, and an attached garage ranging in size from 462 to 650 square feet of building area. The comparables are located from approximately .07 to .45 of one mile from the subject property. The comparables have improvement assessments ranging from \$115,957 to \$154,412 or from \$38.30 to \$51.81 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight comparables submitted by the parties to support their respective positions with one comparable being common to the parties. The Board gives little weight to appellant's comparables #1, #2, and #4 due to differences from the subject in dwelling size, lack of finished basement area, and/or more distant location from the subject property than the remaining comparables. The Board gives most weight to appellant's comparable #3 and the comparables submitted by the board of review, which includes the common comparable, as these properties are most similar to the subject dwelling in size, location and features. These comparables have improvement assessments that range from \$115,957 to \$154,412 or from \$38.30 to \$51.81 per square foot of living area. The subject's improvement assessment of \$140,000 or \$49.58 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
